Unit description

This unit addresses the practical application of financial evaluation and appraisal techniques commonly used by firms and by investors. A primary focus is the optimisation of value creation by the firm as it undertakes corporate finance activities. Within this context, the unit addresses the various capital requirements of the firm as it progresses through the corporate development life cycle as an enterprise. The unit builds on prior knowledge of key corporate finance concepts with progression involving more detail, increased complexity and an emphasis on practical applications within financial markets.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Examine and assess the practical application of financial models and methods commonly used by firms and by financial markets for the purpose of taking investment and capital management decisions.

ULO2: Critically assess the role and importance of value creation to the firm and its stakeholders as evidenced in financial markets.

ULO3: Effectively collate and communicate the quantitative and qualitative aspects of information used to support investment and capital management decisions.

ULO4: Reflect on how to effectively manage a multidisciplinary team as it addresses the diverse needs of various stakeholders including the client firm and financial market participants.

General Assessment Information

Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Table 1: Penalty calculation based on submission time

Submission time after the due date (including weekends)	Penalty (% of available assessment task mark)	Example: for a non-timed assessment task marked out of 30
< 24 hours	10%	10% x 30 marks = 3-mark deduction
24-48 hours	20%	20% x 30 marks = 6-mark deduction
48-72 hours	30%	30% x 30 marks = 9-mark deduction
72-96 hours	40%	40% x 30 marks = 12-mark deduction
> 96 hours	100%	Assignment won't be accepted

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a [Special Consideration application](#). An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.
