Unit description

This unit develops skills required to address a wide range of valuation situations and critically evaluate and apply the variety of valuation techniques used in practice and relevant to company directors, chief financial officers, company secretaries, corporate advisors and equity analysts. Students will develop skills required in the assessment of projects, companies or divisions. This unit will consider in detail the assumptions and implementation issues involved in valuation models, recent developments in cost of capital estimation, valuation methodologies and real options. These principles will then be applied in the valuation of portfolio and controlling interests in both public and private companies. The nuances of performing valuations for mergers and acquisitions vs independent expert's reports vs financial reporting vs taxation purposes will be assessed. Aligned to CAANZ Business Valuation Specialisation.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Explain the theory and practice behind valuation models used in valuing private and public companies and other enterprises.

ULO2: Formulate solutions that best meet regulatory, ethical and societal expectations and justify valuation models recommended, reflecting on valuations tensions and issues

arising.

ULO3: Effectively communicate complex business valuation ideas, information and recommendations to various audiences.

General Assessment Information

Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Table 1: Penalty calculation based on submission time

| Submission time after the due date (including weekends) | Penalty (% of available assessment task mark) | Example: for a non-timed assessment task marked out of 30 |
|--|--|--|
| < 24 hours | 10% | 10% x 30 marks = 3-mark deduction |
| 24-48 hours | 20% | 20% x 30 marks = 6-mark deduction |
| 48-72 hours | 30% | 30% x 30 marks = 9-mark deduction |
| 72-96 hours | 40% | 40% x 30 marks = 12-mark deduction |
| > 96 hours | 100% | Assignment won't be accepted |

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a [Special Consideration application](#). An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.

Delivery and Resources

Learning and Teaching Activities

Strategy: Programs in the Applied Finance Centre adopt a deep teaching and learning strategy. Students acquire and retain knowledge and can make sense of the issues and concepts and apply them in the “real world”. The program relies heavily on student engagement and participation by: (a) Continuous learning throughout the term. This is encouraged through a combination of students undertaking prescribed reading throughout the units and/or completion of practice problems, online activities, case studies, assignments, class discussions, etc and interaction via forums; and (b) Assessments, which enable the student to demonstrate his/her understanding of the learning objectives achieved through the continuous learning.

Student Participation: This is a blended unit where students need to complete assigned

activities before live Zoom sessions and weekend sessions. Students participate in this unit by (a) Actively engaging with the videos and required readings of this unit; (b) Working systematically through and completing online activities; (c) Interacting in forums and face-to-face/online sessions, and (d) Completing all assessment tasks.
