### Unit description

This unit covers the overall structure and dynamics of contemporary private capital covering both portfolio firm level and fund level considerations. Key issues of assessing, valuing, contracting, monitoring and exiting private equity and venture capital investments are dealt with at a practitioner level of detail. This unit covers a spectrum of private capital investments, from early stage and venture (seed and start-up) to late stage (management and buy-outs), together with managing private capital funded businesses. Consideration is also given to fund creation and management.

## Important Academic Dates

General Assessment Information

Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.
