Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

The need to eat and drink is essential to the survival of all animals. This unit examines the psychology of these activities, with a primarily human slant. In particular, the unit covers the anatomy and physiology of the whole ingestive system; what starts and stops eating; why we like and prefer some foods over others; and the psychobiology of dieting, starvation, obesity, and anorexia/bulimia. The unit adopts a broad perspective, so that the impact of human food choice on health, the economy and the environment, are constantly kept in focus.

- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Lectures are all online and are accessed via the unit iLearn page. There are lecture-associated readings from the unit textbook - **Logue, The psychology of eating and drinking, 4th Edition** - which also need to be completed.

There are five self completion tutorials. Each tutorial involves reading and studying three scientific articles and then completing two quizzes about them. Each self completion tutorial and its quizzes have to be completed in its particular week - as will be detailed on the unit iLearn page and in the course handbook (available when the course starts).
