**Unit description**

What is knowledge? Why is it valuable? And to what extent is our knowledge of the world affected by social position, power and language? In this unit, we will explore traditional and contemporary approaches to epistemological questions about what we can know, what we should believe, and whom and what we should trust. Can we trust our individual senses or reflection to provide knowledge of the world, or is knowledge inherently social? When our own intuitions clash with what others say, should we trust ourselves or our community? When should we trust and defer to experts, and how can we tell who’s really an expert to begin with? We will consider philosophical and practical questions about what it is to be a good or bad epistemic agent, focusing on concepts of epistemic (ir)responsibility and epistemic virtues and vices. We will also examine society-level phenomena that may undermine some people’s ability to engage fully as epistemic agents, including systemic material, social, and political patterns that can manifest as epistemic injustice. Through an examination of issues including political language, propaganda and conspiracy theories, we will consider how our epistemic practices and institutions can lead to injustice or corruption, and what we can do about it.
Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: apply understanding developed through course material and readings to explain key theoretical and applied problems in Epistemology and responses to them.
ULO2: apply skills in critical analysis and reflection to respond to the problems and theories introduced in the unit.
ULO3: clearly communicate your own perspective on the views and arguments presented in the unit.
ULO4: contribute to the learning of the group by engaging constructively in philosophical discussion and activities.

General Assessment Information

Detailed assessment information and rubrics
Detailed information about each of the assessments, including rubrics, will be available in iLearn. Please make sure you read the assessment information carefully, and contact the convenor if you have any questions.

Submission and return of assessments
Assessments in this unit are to be submitted through the appropriate 'Turnitin' links in the unit website. They will be marked through 'Grademark', which will allow you to access your marked assignments directly through the website. For information about Turnitin and Grademark, see: https://students.mq.edu.au/support/study/tools-and-resources/ilearn/ilearn-quick-guides-for-students/assignments-and-grades

Special Consideration
Requests for extensions should be submitted via a Special Consideration request, which is available in the http://ask.mq.edu.au portal. Your request should be submitted no later than five days after the due date and should be accompanied by appropriate documentation. Please see here: https://students.mq.edu.au/study/assessment-exams/special-consideration

Read this information carefully, as your request may be turned down if you have not followed procedure, or if you have not submitted a request in a timely manner.

Late Assessment Submission Penalty
Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the
total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of ‘0’ (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue.

This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/ exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.

Academic Integrity

In Philosophy, academic honesty is taken very seriously, and a range of methods, including but not restricted to the use of Turnitin, are used to detect plagiarism. Misrepresenting someone else’s work as your own may be grounds for referral to the Faculty Disciplinary Committee. If you have questions about how to properly cite work or how to credit sources, please ask the convenor for help and see also the Academic Integrity Policy [https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policies/academic-integrity](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policies/academic-integrity)

Please note that the policy also prohibits resubmitting work you have already submitted in another unit. This counts as self-plagiarism.

**Note:** All assignments in this unit are individual assignments. Collusion (unauthorised collaboration on individual assignments) is a breach of the Academic Integrity Policy. This includes sharing or making use of shared assignments, in person or online. If in doubt, contact a member of teaching staff.

A helpful resource if you would like to know more about referencing and avoiding plagiarism is Macquarie’s Academic Integrity Module, available here: [https://students.mq.edu.au/support/study/skills-development](https://students.mq.edu.au/support/study/skills-development). You will need to complete this Module before accessing the unit content, if you have not already done so. More information is available in iLearn.

Academic Writing and Study Support

Macquarie University offers a number of services to help with academic writing, referencing and study skills. For details, see: [https://students.mq.edu.au/support/study/skills/assignments](https://students.mq.edu.au/support/study/skills/assignments)

\(^2\) Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

**Delivery and Resources**

**Lectures**

Lectures will be delivered live on campus from 9-11 on Mondays, in 4 Western Rd, Room 220. Video lectures will be available shortly afterwards through Echo 360 in iLearn for online students.

**Tutorials/ discussion**

Students enrolled in "scheduled" offerings of this unit will attend one tutorial each week (Weeks 2-8, 10-12), either on-campus (for "In person scheduled" students) or on Zoom (for "online scheduled" students). Check the timetable for details (http://timetables.mq.edu.au)

• **Important note:** You must attend or watch the lectures before attending tutorials or engaging in tutorial discussions, since each week's tutorial will be based on that week's lecture. This means you should only register for the tutorial that immediately follows the lecture if you are planning to attend the lecture live each week. Internal students who will not always be able to attend the lecture live should register for a Wednesday tutorial.

"Online flexible" students will engage in tutorial discussions through the discussion forums in iLearn (Weeks 2-8, 10-12).

**Reading**

All the essential readings and some supplementary readings for the course will be available electronically through the library, with links from the 'Leganto' block iLearn. You should do the essential weekly reading before your tutorial/discussion.

**Website**

The unit website is available through iLearn (http://ilearn.mq.edu.au). It contains essential resources for the unit, and you are expected to log in on a regular basis.

**Student Email**

Communications about the unit may be sent to your MQ student email address. Please make sure you check it regularly. For more information about accessing your MQ email, and how to redirect it to a personal email account if you wish to do so, can be found here: [https://students.mq.edu.au/support/technology/service-desk/student-email](https://students.mq.edu.au/support/technology/service-desk/student-email)
### Unit Schedule

**PART 1: Traditional Epistemology: What can I know? (Dr Jenny Duke-Yonge)**

In the first part of the unit, we will explore some traditional approaches to knowledge and belief. What is knowledge? Can we, as individuals, really have knowledge about the world? And if so, how do we get it?

<table>
<thead>
<tr>
<th>Week</th>
<th>Topic</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Week 1</td>
<td>Introduction to Epistemology; The problem of scepticism</td>
<td>We will begin with the traditional analysis of Knowledge as Justified True Belief, and consider the challenge of the sceptic, who questions whether such knowledge is possible. <strong>No tutorials or assessed discussion this week</strong></td>
</tr>
<tr>
<td>Week 2</td>
<td>Foundations for Knowledge: Rationalism and Empiricism</td>
<td>This week we will look at some traditional answers to the question of how we come to know about the world, and what justifies our claims to know. Does our knowledge come through Reason? Sense experience? <strong>Reflective Task Part 1 (introductory quiz) due Sunday 7/8.</strong></td>
</tr>
<tr>
<td>Week 3</td>
<td>Justification: Internalism and Externalism</td>
<td>We’ll begin this week to a challenge to the traditional analysis of knowledge, and the conception of justification that underlies it. How should we understand ‘justification’?</td>
</tr>
<tr>
<td>Week 4</td>
<td>Epistemic Fallibility, Luck and Responsibility</td>
<td>The preceding weeks may have given us reason to think that our knowledge is not as secure as we might have supposed. Is it just a matter of luck whether we know anything at all? This week we’ll consider how we should respond to our own epistemic fallibility.</td>
</tr>
</tbody>
</table>

**PART 2: Social Epistemology (A/Prof Mark Alfano)**

In the second part of the unit, we will explore Social Epistemology, which is based on the idea that to understand knowledge we need to go beyond the individual and consider the social role of the concept of knowledge and our epistemic practices, and how our knowledge is a function of our relations with others.

#### PART 3: Epistemic Pathologies (A/Prof Mark Alfano - Weeks 9 and 10; Dr Jenny Duke-Yonge - Weeks 11 and 12)

What happens when our epistemic practices go wrong? In the final section we will explore how social and political inequalities and power relations are connected with distinctively epistemic forms of injustice, and consider what we might do about it.
