Unit description

Students will undertake studies in an ancient language of their choice. This unit provides students with fundamental introductory knowledge and understanding of ancient language - its phonetic structure, grammar, and vocabulary. The students will learn to integrate the knowledge of the grammar and vocabulary in reading and/or writing texts in the ancient language at the appropriate level, and explore the significance of the ancient language for the study of relevant ancient cultures. It is a foundational unit for students who do not have a degree with a major in the field of ancient languages.

## Delivery and Resources

Please check iLearn for more details. This unit is called a 'shell' unit, which means that you need to attend lectures and tutorials or seminars in some other teaching unit in order to pass this one - that is the reason why it is not listed on a student timetable. You do not also enroll in these units through eStudent: contact the convenor of AHIS6200 and I will add you to the iLearn page for the unit of your choice and inform the convenor of that unit. You should choose one of AHIS ancient languages undergraduate units. Please contact course-convenor of the language unit of your choice to determine what level would be the most suitable for you, taking into account your existing knowledge of the language. Also, **please contact** me, course-convenor of Graduate Certificate (A/P Ian Plant) to let me know your choice. List of units and course convenors could be accessed through this link:

<https://coursehandbook.mq.edu.au/search?q=AHIS>

The exact deadlines for the assessments will be determined by course convenor of the unit you choose. Assessment task in the Graduate Certificate will differ in some ways from those of the undergraduate unit you are accessing. You will need to discuss this with the convenor of the unit you have chosen. See the AHIS/AHIX6200 ilean site for more information.

## Unit Schedule

The schedule will depend on which unit you have chosen for this topic.
