Unit description

Almost every use of land from building a family home to infrastructure projects across cities through to coal mining will require some form of legal assessment and approval. The relevant area of law is environmental planning law. This unit examines the intersection of economic, social and environmental issues in the context of land use and law. The focus is on both the natural and built environment in an urban and rural context with particular emphasis on the regulation of land use under the Environmental Planning and Assessment Law 1979 (NSW) and the Environment Protection and Biodiversity Conservation Act 1999 (Cth). The unit provides a detailed analysis of the legal requirements of land use planning instruments, development assessment methods, environmental impact assessment and administrative decision making relating to land use. A critical analysis is undertaken of the effectiveness of the current regulatory regime including reform proposals and options. Discussion and analysis of relevant case law and the functions of the Land and Environment Court in terms of resolving land planning and development issues is covered extensively.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Apply the key principles, policies and theories underlying planning and development law.

ULO2: Identify, explain and apply the regulatory scheme for planning, development assessment and approval of land use development at federal, state and local levels as the basis for critically analysis of the Environmental Planning and Assessment Act 1979 (NSW) and Environment Protection Biodiversity Conservation Act 1999 (Cth).

ULO3: Critically analyse and evaluate the principles of environmental justice and the implementation of Ecologically Sustainable Development in contexts relevant to planning and development law at each level of government

ULO4: Evaluate the effectiveness and accountability of public authorities (executive, legislative and judicial) and citizens involved in environmental planning and assessment with a focus on the local and state levels of government.

ULO5: Identify and critique the role of the Land and Environment Court in the assessment of development and protection of the environment including public participation mechanisms

Delivery and Resources

Classes:

Lecture material will be delivered each week. Please note that some smaller lectures will be delivered later in the week following the main lecture - though the weekly allocation will not exceed two hours per week in total.

Tutorials are weekly and begin in Week 1.

Classes will be delivered using various combinations of online and face to face delivery.

Lectures will be exclusively online and recorded and uploaded using Zoom.

Weekly tutorials will either be face to face or online. Please ensure that you check the designation of each tutorial (either online to face to face) before you enrol and select your preference. Zoom invitations will be sent to all students in the online tutorials in the week prior to the commencement of Session 1, 2022.

Readings and materials:

The prescribed book for this unit is - Rosemary Lyster et al, *Environmental and Planning Law in New South Wales* 5th edition (2021) - <https://federationpress.com.au/product/environmental-and-planning-law-in-new-south-wales-2/>

Additional materials will be included on a weekly basis. Additional materials will be available through the MQ Library database. The Reading List will be available on the iLearn page and through Leganto in the week prior to the commencement of Session 1, 2022.
