General Assessment Information

Submission of Assessments

All assessment pieces are to be submitted via Turnitin portals that will be made available the unit's iLearn site. Written assessment pieces will be run through the Turnitin software system which detects unoriginal work.

Special Consideration Extensions and Penalties

All work must be submitted on time unless an extension has been granted. Requests for extensions (Special Consideration) will only be considered on serious grounds and with appropriate evidence (e.g., medical certificates, counsellor's letters). See this link for policy details: <https://students.mq.edu.au/study/assessment-exams/special-consideration>. Please note that work due concurrently in other subjects is NOT an exceptional circumstance and does not constitute a legitimate reason for an extension.

Late Assessment Penalty

*Unless a Special Consideration request has been submitted and approved, a **5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted**, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to written reports and recordings only. **Late submission of time sensitive tasks** (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs **will be addressed by the unit convenor in a Special consideration application.***

Special Consideration Policy

The University classifies a disruption warranting special consideration as serious and unavoidable if it:

- could not have reasonably been anticipated, avoided or guarded against by the student; and

- was beyond the student's control; and
- caused substantial disruption to the student's capacity for effective study and/or completion of required work; and
- occurred during an event critical study period and was at least three (3) consecutive days duration, and / or
- prevented completion of a final examination.

Students with a pre-existing disability/health condition or prolonged adverse circumstances may be eligible for ongoing assistance and support. Such support is governed by other policies and may be sought and coordinated through Campus Wellbeing and Support Services.

How to submit a Special Consideration Notification

A Special Consideration Notification must be completed and submitted online through www.ask.mq.edu.au within five (5) working days of the commencement of the disruption.

Applying for Special Consideration:

1. Log in at ask.mq
2. Click 'Special Consideration' from the 'Submit' menu on the left
3. Fill in the required fields as prompted.

Once you have completed filling out the information, please click on 'Submit'.

Delivery and Resources

This unit uses an iLearn website and Echo360 lecture recordings (<https://ilearn.mq.edu.au/login/MQ/>). The website contains links to the reading material, lecture notes, lecture recordings, and other learning materials such as video clips, weblinks, and images. Students will therefore require access to a computer and a good internet connection in order to access all the material and participate in the unit effectively. PHIL/PHIX3056 will be delivered using a combination of lectures (livestream and recorded via Echo360) and tutorial classes. Lectures are organised around key texts in which fundamental concepts and arguments are introduced and explained. The fortnightly quizzes are designed to practise the various skills required in philosophical writing. They will be scaffolded to help students in the preparation for tackling Assessment tasks. External students will engage in these activities online via dedicated iLearn discussion forums. For lecture times and classrooms please consult the MQ Timetable website:

<http://www.timetables.mq.edu.au>.

This website will display up-to-date information on your classes and classroom locations.

Lectures:

Lectures will take place on Fridays 11am-1pm (11 Wally's Walk, Tutorial Room 120) and will be both livestreamed on the day and recorded; these lectures will be available via Echo360 shortly afterwards.

Tutorials:

Weekly tutorial classes (both on-campus and online) will be conducted on Fridays commencing from Week 2 (on-campus tutorials held at 11 Wally's Walk, Tutorial Room 120; Zoom tutorial class for internal students on Fridays 2-3pm via the dedicated Zoom link on iLearn). Week 1 will be an Introductory session where students introduce themselves to each other and we discuss any issues relevant to studying this unit. Weekly Tutorial Discussion Questions will be posted after the lecture recordings have been posted. Students are required to respond to the Tutorial Discussion Questions and engage each other in discussion responding to issues raised in these responses. N.B.: Weekly tutorials will begin in WEEK 2 and will continue until WEEK 12 (Week 13 tutorial will be kept free or may involve a voluntary online peer review session for the Essay).

Required and Recommended Texts and/or Materials

PHIL3056 Contemporary Topics in Philosophy will be using electronically available readings available via Leganto on the iLearn website. For Part I, my book will also be a valuable resource and is a recommended background reading: Robert Sinnerbrink, *New Philosophies of Film: Thinking Images* (Continuum/Bloomsbury, 2011) or *New Philosophies of Film: An Introduction to Cinema as a Way of Thinking*, Second Edition (Bloomsbury, 2022). Textbooks for this unit can be purchased online from Booktopia <https://www.booktopia.com.au/coop>

Unit Schedule

PHIL3056 Contemporary Topics in Philosophy comprises two parts, spanning cutting-edge debates in aesthetics/philosophy of film and in philosophy of race. In Part I, 'Film as Philosophy' we will examine recent debates in the philosophy of film, focusing on the idea of 'film as philosophy' and the question whether film can contribute to philosophical understanding via cinematic means. As part of this debate we will explore particular case studies/films in depth that focus on emotion, empathy, and the idea of cinematic ethics (using cinema as a medium of ethical experience). In Part II, 'Philosophy of Race,' we will examine the debate about the existence of human biological races from a philosophical perspective.

Part I 'Film as Philosophy'

Week 1: What is Philosophy of Film/Film-Philosophy?

What is "philosophy of film"? Can films "philosophise"? The distinction between philosophy of film and 'film as philosophy' or 'film-philosophy'.

Week 2: Ontologies of the Moving Image

What are 'moving images'? Is the movement we see real or apparent? Andre Bazin's 'ontology of the cinematographic image'. Noel Carroll's critique and alternative definition of moving images. What about digital images? Do these undermine any claims that moving images can depict reality faithfully?

Week 3: Understanding Film Narrative

How and why do movies makes sense? Cognitivist theories of narrative and narrative comprehension. Carroll's 'erotetic' model of narrative. Critical questions from an aesthetic and phenomenological point of view. Are films just about narrative content?

- Katherine Thompson-Jones, 'The Thinking Viewer', in K. Thompson-Jones, *Aesthetics and Film* (London/New York: Continuum, 2008), pp. 99-114.

Week 4: Cognitivism Goes to the Movies

The 'cognitivist turn' in film theory. What can cognitivist theories offer to philosophy of film? The challenge to cognitivist approaches presented by art cinema. Critical questions for cognitivism and recent cognitivist responses to these critiques. Lars von Trier's films as case study.

[Mid-semester break]

Part II: 'Philosophy of Race'

Week 8: Race as Subspecies, and the Flight to Reference

In the second half of the unit, we explore the debate about the existence of human biological races from a philosophical perspective. The closest thing to a scientific synonym for 'race' is *subspecies*. We begin by examining theoretical and empirical issues with applying subspecies classification to humans, using Robin Andreasen's work as an example. If there are no human subspecies, as is generally accepted, then either there are no races or race needs to be defined differently. In the second half of the lecture, we turn to the philosophy of language for resources to help us evaluate the other definitions of race we consider in this unit.

Week 9: Race as Population

This week we consider 20th century biologist Theodosius Dobzhansky's definition of race as 'genetic population'. Did Dobzhansky, in attempting to define races as populations, actually offer an alternative to the concept of race? In the second half of the lecture, we turn our attention away from genetics and toward morphological differences. Some have argued that forensic anthropologists, who routinely classify human bodily remains according to "race", prove that race is biologically real. Are they right?

Week 10: Race as Genetic Cluster

The biological race debate was reignited in the early 21st century after new findings were published, using new genetic clustering techniques, that many interpreted as showing that race is biologically real. We will look closely at this study, which does not mention 'race' once, to determine whether it really supports biological racial realism.

Week 11: Race as a Folk Category

Quayshawn Spencer and Michael Hardimon, two of the most influential biological race realists, argue that if we want to know what race is, and whether it is real, we should not look to scientists, but to ordinary people: the folk. These philosophers argue that race, as understood by the folk, is biologically real. This week we will evaluate their arguments. Who gets to define race?

Week 12: Other Contemporary Approaches

The philosopher Philip Kitcher once argued that races are "inbred lineages": populations between which interbreeding is low. He later revised his view and now defends a pragmatist approach to race, according to which the reality of race is relative to its usefulness. We will evaluate his inbred lineage approach, as well as his pragmatist arguments for and against biological racial realism. Finally, we will consider one last version of biological racial realism: race as ecotype.

Week 13 (optional): Essay Peer Review Session
