Unit description
This unit will explore various theoretical and practical issues raised by a single important recent theme in philosophy, such as the nature of the self or the impacts of technology. The unit will explore this theme from a variety of perspectives by looking at the relevant metaphysical and epistemological, ethical and moral, and political and social issues it raises. The unit’s topics and themes may differ from year to year but will not replicate those covered in Research Topics in Philosophy I. Students will be exposed to important philosophical debates so that they are able to begin to pursue their own research projects.
