Unit description

As places where people live, work and play, neighbourhoods, cities and regions are vital to the health and wellbeing of diverse populations. Creating liveable, connected and vibrant communities is a policy imperative and a critical challenge for planning and governance. This unit explores issues of diversity, equity and wellbeing in relation to planning healthy places. It considers the physical and social environments that enable or constrain the creation of healthy places. Overall, students will gain practical knowledge of the diverse social, economic and spatial dynamics that shape diversity, equity and wellbeing in cities and regions and the policies and strategies that are used to plan and create liveable and healthy places.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify the drivers and dynamics of living in and planning for healthy places

ULO2: Critically analyse the relationship between health, wellbeing and place

ULO3: Demonstrate an advanced understanding of how healthy and liveable places are shaped by social equity and diversity

ULO4: Evaluate policies, plans and projects that seek to create and sustain healthy places

General Assessment Information

Late penalty

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – 10 marks out of 100 credit will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.
