### Unit description

With an emphasis on the Australasian region, this exciting interdisciplinary unit explores how societies and ecologies are entwined and develops creative ways of approaching environmental dilemmas. Bringing together geographic perspectives from the sciences, social sciences, and humanities, it examines the concepts of environment, sustainability, and society, together with their past and possible future socio-political and economic framings. The historical and contemporary contexts of key environmental issues in Australia are explained along with their connections to global events and perspectives, including climate change, invasive species, water management, environmental protection movements, and links between consumption and production. Current planning frameworks and management processes, including legal and legislative mechanisms are also considered, along with emerging strategies and social movements that aim to address existing and expected problems.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

- ULO1:** Critically examine the mutually shaping forces of societies and ecologies in producing environmental dilemmas
- ULO2:** Explain the significance of historical and contemporary contexts to environmental issues at different scales
- ULO3:** Identify, and critically examine, key environmental issues
- ULO4:** Evaluate and respond to diverse perspectives and approaches to environments, societies and sustainability
- ULO5:** Engage with advanced concepts and academic texts
- ULO6:** Assess, sort, and synthesise information in presentations, small group discussions, and written work

## General Assessment Information

### SUBMISSION REQUIREMENTS

All written assessments are to be submitted via Turnitin, the university online submission and marking system - found as a link in iLearn. Turnitin includes Grademark, a paperless grading system where your written assessments are marked by staff online. Submissions are also checked for plagiarism by Turnitin. Turnitin automatically compares your work to the work of your classmates, previous students and material available on the internet. Hard copies of

assignments are no longer accepted and will not be marked.

For more information on Turnitin and Grademark: [http://mq.edu.au/iLearn/student\\_info/assignments.htm](http://mq.edu.au/iLearn/student_info/assignments.htm)

## DEADLINES, EXTENSIONS AND PENALTIES

Deadlines set for assessment submissions will not be altered except in exceptional circumstances. In all cases, extensions must be supported with appropriate documentation (medical certificate, counsellor's certificate, statutory declaration). All extensions must be applied for and granted through the special consideration process. See the Special Consideration Policy <https://students.mq.edu.au/study/my-study-program/special-consideration>

Extensions will not be granted in cases of poor time management. Only the Unit Convenor can authorise extensions.

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – 10 marks out of 100 credit will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.

Students who fail to complete and submit ALL assessments for the unit may not receive enough marks to pass the unit. Penalties will also be incurred for plagiarism, that is, the use of another persons' work and presentation as your own (see University Policies and [http://www.mq.edu.au/policy/docs/academic\\_honesty/policy.html](http://www.mq.edu.au/policy/docs/academic_honesty/policy.html)).

## GRADING

Each written assessment will be marked, commented upon and returned to you via Turnitin and Grademark. Grading is conducted in line with the University's grading policy (<http://www.mq.edu.au/policy/docs/grading/policy.html>)

## Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Tutorial facilitation</u>	25%	No	Weeks 2-11

Assessment Type <sup>1</sup>: Facilitation

Indicative Time on Task <sup>2</sup>: 11 hours

Due: **Weeks 2-11**

Weighting: **25%**

Undertake discussions and presentations based on unit readings. This will include each student leading the facilitation of a selected tutorial and submitting a summary of the associated readings. All students are, however, expected to help facilitate the discussion each week.

On successful completion you will be able to:

- Critically examine the mutually shaping forces of societies and ecologies in producing environmental dilemmas
- Explain the significance of historical and contemporary contexts to environmental issues at different scales
- Evaluate and respond to diverse perspectives and approaches to environments, societies and sustainability
- Engage with advanced concepts and academic texts
- Assess, sort, and synthesise information in presentations, small group discussions, and written work

## Essay

Assessment Type <sup>1</sup>: Essay

Indicative Time on Task <sup>2</sup>: 50 hours

Due: **5pm 30 April 2022**

Weighting: **40%**

An essay that engages with key concepts from the unit and demonstrates independent research based on a topic provided. Word length: 2,000 words.

On successful completion you will be able to:

- Critically examine the mutually shaping forces of societies and ecologies in producing environmental dilemmas
- Identify, and critically examine, key environmental issues
- Evaluate and respond to diverse perspectives and approaches to environments, societies and sustainability
- Engage with advanced concepts and academic texts
- Assess, sort, and synthesise information in presentations, small group discussions, and written work

## Take home exam

Assessment Type <sup>1</sup>: Quiz/Test

Indicative Time on Task <sup>2</sup>: 30 hours

Due: **5pm 3 June 2022**

Weighting: **35%**

A take-home exam based on lecture material.

On successful completion you will be able to:

- Critically examine the mutually shaping forces of societies and ecologies in producing environmental dilemmas
- Explain the significance of historical and contemporary contexts to environmental issues at different scales
- Identify, and critically examine, key environmental issues
- Assess, sort, and synthesise information in presentations, small group discussions, and written work

---

<sup>1</sup> If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

<sup>2</sup> Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

## Delivery and Resources

### Technology

This unit has a website which is accessible via [www.mq.edu.au/iLearn](http://www.mq.edu.au/iLearn). Here you can get access to unit materials including recording of lectures, copies of lecture slides, notices and a general discussion place to pose questions to staff.

Students are not required to acquire any specific technology for this unit but are expected to access the iLearn site and to use computers to produce their assignments.

### Lecture and tutorials

This unit runs as a series of weekly lectures, and a tutorial program (1 session weekly). Recording of lectures will be made available on iLearn through Echo360. Copies of lecture slides

will also be made available through iLearn.

Fully online students are automatically enrolled in a weekly tutorial which will run through an asynchronous discussion forum (in an online 'chat' format).
