Unit description
This unit will examine cutting edge topics in applied ethics curated by leading researchers in the field. Topics will be refreshed each year and may include exploration of: ethical issues in the use of AI and machine learning; animal ethics; ethics of emerging technologies including in healthcare, reproductive and genetic technologies, and computing; family ethics; children’s rights and welfare; contemporary challenges in research ethics; climate change and environmental ethics. Discussion will be structured around key concepts, themes, ethical frameworks and questions such as personhood, autonomy, harm, dignity, justice, rights, vulnerability, integrity and accountability.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: understand some of the current debates and topics in contemporary applied ethics
ULO2: analyse arguments in the relevant literature
ULO3: evaluate relevant theories and arguments critically
ULO4: communicate clearly your own perspective on the views and arguments presented in the unit

General Assessment Information
Late Assessment Submission Penalty

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of ‘0’ (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue.

This late penalty will apply to non-time sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.

Delivery and Resources

Technology used: You will require access to a computer and a good internet connection in order to participate in the unit effectively. The unit has an iLearn site where activities are set and unit materials distributed. Written tasks will be submitted via the plagiarism detection software turnitin.

Required readings: Required readings are available for download from the library via Leganto.

Lectures and tutorials: For face-to-face students, the lecture and tutorial are on the same day (Monday) so:

1. all readings will need to be read before the lecture and tutorial and
2. you will need to attend the lecture in order to be able to participate meaningfully in the tutorial.
Readings will be accessible at least one week before the relevant lecture and tutorial. Tutorials will run from Weeks 2-12 inclusive, except for Week 9, which is a public holiday. In Week 9, the lecture will be provided as a recording and the tutorial will be replaced with an online discussion, due at 11:55pm on the Sunday at the end of Week 9 (09/10/2022).

**Recommended readings:** As well as the required reading, recommended additional readings for each topic might be listed on iLearn. You do not need to read these each week but they are highly recommended for a better understanding of the topics.
