Unit description

Geologists are investigating whether we have entered a new geological epoch known as the Anthropocene in which humanity is a driving force of global environmental change. With human activities increasingly connected to processes of planetary degradation there is an urgent need for multidisciplinary research that overcomes traditional divides between physical scientists, social scientists and environmental humanities researchers. This unit offers an interdisciplinary and critical introduction to Anthropocene studies, an important area for current and future research. The unit focuses upon how we should live in the Anthropocene and respond to the knowledge that current socioecological practices are not sustainable. Some key themes include: histories of the Anthropocene; human-nature relations; social and environmental justice; Indigenous knowledges; non-human agency; environmental governance; activism and impacts. The unit is team taught involving leading thinkers from across the university. It is designed to be accessible to students from a wide range of backgrounds and incorporates considerable flexibility to steer assessments towards your research interests.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Develop advanced multidisciplinary knowledge and understanding of the challenges posed by the Anthropocene.

ULO2: Identify and reflect on novel areas of research and engagement across human and non-human boundaries.

ULO3: Conceptualise links between Anthropocene issues and personal research interests.

ULO4: Develop and apply research design and practice skills that engage with emergent themes of the Anthropocene.

ULO5: Improve skills in written, verbal and conversational forms of research communication.

General Assessment Information

Unless a Disruption to Studies request has been submitted and approved, (a) a penalty for lateness will apply – 10 marks out of 100 credit will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted seven days (incl. weekends) after the original submission deadline.

Assessment Tasks

Name	Weighting	Hurdle	Due
Anthropocene Field Project	45%	No	17:00 2/06/2022
Weekly Reflective Summaries	30%	No	17:00 18/3/2022
Living in the Anthropocene Blog	25%	No	Mondays 9:00, from weeks 3-10

Anthropocene Field Project

Assessment Type ¹: Essay

Indicative Time on Task ²: 60 hours

Due: **17:00 2/06/2022**

Weighting: **45%**

A small field 3000-word research project informed by ideas, theories and debates associated with the Anthropocene. The 'field' is flexibly defined in this task and can involve a combination of textual, media and observational analysis.

On successful completion you will be able to:

- Develop advanced multidisciplinary knowledge and understanding of the challenges posed by the Anthropocene.
- Identify and reflect on novel areas of research and engagement across human and non-human boundaries.
- Conceptualise links between Anthropocene issues and personal research interests.

- Develop and apply research design and practice skills that engage with emergent themes of the Anthropocene.
- Improve skills in written, verbal and conversational forms of research communication.

Weekly Reflective Summaries

Assessment Type ¹: Log book

Indicative Time on Task ²: 18 hours

Due: **17:00 18/3/2022**

Weighting: **30%**

Thoughtful and reflective record of the weekly required readings assigned the unit. It will include a summary of the reading material and a reflection on new insights gained, what was interesting, and any points of disagreement.

On successful completion you will be able to:

- Develop advanced multidisciplinary knowledge and understanding of the challenges posed by the Anthropocene.
- Identify and reflect on novel areas of research and engagement across human and non-human boundaries.
- Develop and apply research design and practice skills that engage with emergent themes of the Anthropocene.
- Improve skills in written, verbal and conversational forms of research communication.

Living in the Anthropocene Blog

Assessment Type ¹: Non-academic writing

Indicative Time on Task ²: 20 hours

Due: **Mondays 9:00, from weeks 3-10**

Weighting: **25%**

A substantive 1500-word blog linked to a unit theme. The blog is written in a topical and engaging style that competently engages with complex concepts associated with the topic and the broader challenges associated with living in the Anthropocene.

On successful completion you will be able to:

- Develop advanced multidisciplinary knowledge and understanding of the challenges posed by the Anthropocene.
- Identify and reflect on novel areas of research and engagement across human and non-human boundaries.
- Conceptualise links between Anthropocene issues and personal research interests.
- Develop and apply research design and practice skills that engage with emergent

themes of the Anthropocene.

- Improve skills in written, verbal and conversational forms of research communication.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

FOAR7005 will be taught through a series of two-hour discussion-based workshops hosted by researchers from across the University. Students will be set required readings before the workshop and these readings will form the basis for in-depth workshop discussions. The unit is supported by an iLearn website – where readings and assessment instructions and criteria will be made available. Please note that this unit requires compulsory participation in the workshops.

Unit Schedule

Week	Topic	Facilitator
1	Introduction to Living in the Anthropocene: possibilities and problems	Dr Jess McLean

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

Changes from Previous Offering

The assessment structure has changed in this offering to reduce the amount of Weekly Reflective Summaries that students need to submit. Rather than scheduling them over the whole semester, one submission of two Weekly Reflective Summaries is now due at the end of week 4.
