Unit description
Language learning beyond the language classroom plays a crucial role in the development of high levels of language proficiency. Increasing attention to language learning beyond the classroom is also influencing thinking on key concepts in Second Language Acquisition (SLA) research that has hitherto been based largely on classroom research. In this course, students will explore recent research on language learning beyond the classroom, and examine its impact on SLA. Emphasising an ecological view of relationships between out-of-class learning and in-class learning, the course will cover the roles of intentional and incidental learning inside and outside the classroom, debates on the need for instruction in SLA, and the implications of research on language learning beyond the classroom for our understanding of the concepts of autonomy, learning strategies and motivation.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Articulate the contribution of in-class and out-of-class activities to your own second language learning

ULO2: Explain key terms and concepts that have been developed to account for
language learning beyond the classroom

**ULO3:** Demonstrate an in-depth understanding of distinctions between intentional and incidental, explicit and implicit learning and their application to a range of in-class and out-of-class learning activities

**ULO4:** Critically evaluate research literature on autonomy, learning strategies and motivation from the perspective of language learning beyond the classroom

**ULO5:** Apply a theoretical understanding of ecologies of language learning to the learning of a particular individual or group of language learners

**General Assessment Information**

**Important:** Please refer to the detailed assessment instructions for each assessment task, which will be posted in the 'Assessment' block on the APPL8260 iLearn site. These instructions contain essential information about the ways that individual assessment tasks should be approached and presented.
