Unit description

This unit introduces students to the Australian legal system, relevant commercial legal principles, and corporate law and regulation. At the beginning of the unit students will identify core aspects of rights and liabilities, and the characteristics of business organisations generally. Thereafter, the unit focuses on Australian company law. Students develop an understanding of the nature and function of a company and will analyse important issues concerning the duties of directors, shareholder rights, takeovers and share market regulation, and corporate insolvency. Classes will include consideration of relevant legal issues, case law, and important sections of the Corporations Act.
