### Unit description

The unit provides an introduction to the essential elements of the research process, including developing an effective research proposal. It is designed for students who are undertaking, or who are seeking to undertake, a major higher degree research based project or thesis. Students will explore the purpose of research and its role within the broader community. Topics also include the philosophical aspects of the scientific process and knowledge paradigms, developing a necessary researcher’s mindset, as well as various protocols associated with research conduct and academic writing. Students will acquire a deeper understanding of various elements of the research project/thesis, including effective and comprehensive literature reviews, approaches to research and research methodology, as well as how to make sense of, and report on, data results. Students will learn to discuss and contextualise research results with regard to what has been found in previous literature and their implications for the theoretical foundations of their chosen study. Finally, students will be guided through various aspects of the peer-review process including the submission of manuscripts to conferences and journals as well as addressing reviewer feedback.

## Important Academic Dates

Writing blogs weekly

Assessment Type ¹: Non-academic writing
Indicative Time on Task ²: 24 hours
Due: weekly submission
Weighting: 10%

Requires students to choose to write six blogs (Maximum 500 words each) responding to the writing tasks provided in the weekly sessions of the course (except for the last week).

On successful completion you will be able to:

- Reflect on language and academic communication convention styles to inform future academic practice and writing
- Receive and address feedback to improve the quality of their research

Literature review

Assessment Type ¹: Literature review
Indicative Time on Task ²: 30 hours
Due: 24/04/2022
Weighting: 40%
The literature review requires students to demonstrate their knowledge and stance on the literature pertinent to their preferred subject topic. Students should collect relevant theories and studies from reliable academic sources, and apply critical thinking to evaluate them and critical writing to synthesize arguments and theoretical propositions in their written work. The word limit of the assessment is 3,000 words.

On successful completion you will be able to:

- Develop knowledge, academic literacy and strategies to write critical reviews of literature in the discipline of business and economics
- Reflect on language and academic communication convention styles to inform future academic practice and writing
- Receive and address feedback to improve the quality of their research

**Oral presentation of the research proposal**

Assessment Type: Presentation
Indicative Time on Task: 6 hours
Due: **31/05/2022**
Weighting: **15%**

Students make a 5-min presentation on their proposed study with aid of slides.

On successful completion you will be able to:

- Receive and address feedback to improve the quality of their research
- Orally communicate research ideas to specialist and non-specialist audience

**A research proposal**

Assessment Type: Project
Indicative Time on Task: 25 hours
Due: **19/06/2022**
Weighting: **35%**

This assignment requires students to compose a compact-version of research proposal on their preferred topic, the one reviewed for the assignment of literature review. In the proposal, students should address only required elements rather than all elements typically seen in a proposal. The word limit of the assessment is 3,000 words.
On successful completion you will be able to:

- Develop knowledge, academic literacy and strategies to write the research article, thesis or protocol in the discipline section by section
- Reflect on language and academic communication convention styles to inform future academic practice and writing
- Receive and address feedback to improve the quality of their research

1 If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Learning Skills Unit for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation
