Unit description
The ability to generate strategic insights is an expectation for the "future of work" but what does this actually mean? Are there universal principles of strategic thinking that can help us become more effective at developing insights? And how can these strategic insights help an organisation become more competitive? This unit examines the basic elements of strategy through a set of rich and nuanced business models. It covers classic strategic questions and topics with an emphasis on diverse and emergent themes, such as open innovation and strategy, networks, platforms and other business model innovations, and the processes and practices of strategy, and their effects. Students apply the tools and techniques of contemporary strategic analysis and also reflect on the doing of strategy in the context of their own business or workplace, and other real cases. In parallel, students are encouraged to develop a reflective and critical perspective on the implications and impacts of taken-for-granted strategy thinking, concepts and tools, and conversely are asked to consider the future of strategy, centred on how strategic management can provide solutions for pressing sustainability-related societal-level challenges.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Critically consider the forces that shape competition for economic exchanges.
ULO2: Analyse the sources of value in company offerings and how markets are
segmented based on differences in perceived value.

**ULO3:** Evaluate and develop strategic options that are suitable, feasible, and acceptable.

**ULO4:** Effectively communicate a strategy in a way that is relevant, concise, and actionable

**General Assessment Information**

**General Assessment Information**

**Late submissions of assessments**

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of ‘0’ will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for Special Consideration.

**Special Consideration**

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.

**Word limits**

Anything beyond a stated assessment word limit (other than your reference list) may not be marked. Seek any further clarification from the unit convenor.
