Unit description
Organisations are facing increased challenges brought about by a globalised and competitive business environment. Organisations have changed from being hierarchical and silo-ed towards being flatter and team-driven. Now, more than ever, the manner by which people are managed and led has become crucial for organisational success. This unit considers a range of concepts, theories, and methodologies to navigate and optimise workplace relationships in this new organisational context. Students learn how to motivate and manage people in their organisation, focusing on strategy, employee experience and performance management. Through structured learning activities, students examine the available evidence concerning the approaches and contingencies that enhance employee, team and organisational outcomes through the lenses of talent, diversity and culture, as well as human resource management, and advance strategies to enact positive outcomes in simulated and real-life scenarios. Particular focus is placed on the changes associated with the future of work and their implications for managing people in complex and dynamic environments.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Select and apply a range of theories and methodologies to enhance employee
experience, motivation and performance

ULO2: Develop and analyse strategies for managing individuals and teams to best position organisations in their response to strategic opportunities and threats
ULO3: Evaluate and manage individual differences, diversity and inclusion in order to advance organisational sustainability and success

General Assessment Information

Late submissions of assessments Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.

Word limits

Anything beyond a stated assessment word limit (other than your reference list) may not be marked. Seek any further clarification from the unit convenor.
