Unit description
Being financially literate is a core competency for any business leader. The ability to know your numbers is essential whether you are running your own small business/startup or whether you are working in a large organisation. This unit offers a solid financial accounting and management accounting grounding to students. This knowledge allows students to understand the financial opportunities and challenges inherent in any business endeavor. Students will subsequently better understand the position and performance of initiatives undertaken in the context of the broader strategies and objectives of an organisation. Such an understanding will help students make critical cost-benefit trade-offs.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

General Assessment Information

Late submissions of assessments Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.
