Unit description

Policies embody ideas about what governments can and should do, and how. These ideas 'frame' the problems policies address and how those problems will be solved. Policy ideas vary between policy domains and between countries and they change over time. Policy ideas are mobilised and contested by policy actors seeking changes that align with their own interests or those of their constituencies. When new ideas enter the policy process, they may offer genuinely novel solutions to old problems or renew the attractiveness of discarded approaches. New ideas can also function as solutions in search of problems. In this unit, students study policy documents and research resources to gain a critical understanding of how ideas can frame the definition of policy problems and their solutions. Because policy ideas travel, the unit considers the mechanisms and actors involved in what researchers call policy transfer or policy mobilities. Following an introduction to the role of ideas in policy, the unit is taught in three modules, each exploring the history, contours and impacts of a 'big idea' that has come into public and social policy in recent decades. Ideas in focus may include a subset of: brain and mind sciences, New Public Management, big data and governance by algorithm, social investment and asset-based social policy, user choice, sustainability, resilience, and well-being.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Demonstrate understanding of theory and debates about the role of ideas in shaping policy.

ULO2: Demonstrate understanding of the history, contours and impacts of some important policy ideas.

ULO3: Develop a critical appreciation of alternative ways policy problems can be framed.

ULO4: Apply theoretical and substantive knowledge to analyse policy documents.

ULO5: Communicate research findings and views accurately and effectively using a variety of written and spoken techniques.

General Assessment Information

Important note about late penalties in the School of Social Sciences

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – 10 marks out of 100 credit will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.
