Unit description

This unit provides students with contemporary knowledge and skills concerning the effective management of people at work. The unit reviews the key systems required for organisations to effectively manage their people in the context of their overall business strategy and the allied managerial skills required for successful implementation. Students learn what the options are for recruitment, selection, development, performance management, reward systems and other fundamental aspects of managing people and the key challenges facing organisations. A particular focus of this unit is the requirement for students to critically evaluate real organisational practices against contemporary theory as well as long established principles.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Evaluate recent developments and contemporary issues in managing people at work.

ULO2: Defend the importance of thinking strategically about HRM from different theoretical perspectives and the implications for the roles of HR professionals.

ULO3: Critically analyse HR policies and practices against contemporary theory and

established principles.

ULO4: Design HR strategies in key areas of practice that support the creation of value and competitive advantage while also promoting employee wellbeing and decent work.

General Assessment Information

Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Table 1: Penalty calculation based on submission time

Submission time after the due date (including weekends)	Penalty (% of available assessment task mark)	Example: for a non-timed assessment task marked out of 30
< 24 hours	10%	10% x 30 marks = 3-mark deduction
24-48 hours	20%	20% x 30 marks = 6-mark deduction
48-72 hours	30%	30% x 30 marks = 9-mark deduction
72-96 hours	40%	40% x 30 marks = 12-mark deduction
> 96 hours	100%	Assignment won't be accepted

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.
