Unit description

This unit is the second practical placement unit for the Master of Clinical Psychology program and is conducted in an external clinical service under the supervision of Adjunct Fellows of Macquarie University. The placement has an overall workload of 300 hours, and provides the opportunity to build upon competencies in Clinical psychology, demonstrated in Practical Placement 1 in the Psychology Clinic, to an intermediate level. Activities include face-to-face assessment and treatment of genuine clients of the service; professional administrative tasks such as risk management, note keeping and report writing; and supervision activities, both individual and group as required and available in the external setting. A range of general clinical work with adults and children is mandatory and may include anxiety, depression, trauma, personality disorders and medical problems, as well as practice working in different therapeutic approaches. Students are required to complete at least a thousand hours across all placements in the program to meet accreditation requirements. By the time students finish this first external placement unit, they will have further developed competencies in 10 domains as identified by the accrediting body APAC as Core Competencies to become a Clinical Psychologist.

## Inclusion and Diversity

Social inclusion at Macquarie University is about giving everyone who has the potential to benefit from higher education the opportunity to study at university, participate in campus life and flourish in their chosen field. The University has made significant moves to promote an equitable, diverse and exciting campus community for the benefit of staff and students. It is your responsibility to contribute towards the development of an inclusive culture and practice in the areas of learning and teaching, research, and service orientation and delivery. As a member of the Macquarie University community, you must not discriminate against or harass others based on their sex, gender, race, marital status, carers' responsibilities, disability, sexual orientation, age, political conviction or religious belief. All staff and students are expected to display appropriate behaviour that is conducive to a healthy learning environment for everyone.

## Professionalism

In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability embedded in all our courses.

As part of developing professionalism, students are expected to attend all small group interactive sessions including clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded (e.g., face-to-face lectures), however you are encouraged to avoid relying upon such material as they do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect for the academic staff who have worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please arrive to all learning activities on time, and if you are unavoidably detained, please join activity as quietly as possible to minimise disruption. Phones and other electronic devices that produce noise and other distractions must be turned off prior to entering class. Where your own device (e.g., laptop) is being used for class-related activities, you are asked to close down all other applications to avoid distraction to you and others. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.
