Unit description

Using anthropological and ethnographic studies, this unit focuses mainly on the social and cultural contexts of drug use, both legal and illegal. Topics include: the international traffic in opium/heroin and cocaine in the Golden Triangle of mainland South-East Asia and in South America and the way this traffic intermeshes with regional politics and local tribal, peasant and commercial systems of production and exchange; the social history of drugs in the USA, UK and Australia; youth culture and drugs in the West; AIDS and intravenous drug use; addiction and treatment; drugs and the law; the global political economy of pharmaceuticals, particularly contraceptives, erectile dysfunction drugs, and antiretrovirals in the age of AIDS; and the placebo effect. Students will learn to appreciate the complex ways that drug use is shaped by cultural, historical, economic, and political factors on a global scale. This unit also examines psychological theories of addiction and the neurology of drug use.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Demonstrate a basic understanding of the pharmacology of recreational drugs.

ULO2: Describe the physical, psychological and social aspects of addiction.

ULO3: Show familiarity with anthropological and ethnographic approaches to drug use, including the ritual and symbolic aspects of drug use.

ULO4: Describe the impact of broad social, political, and economic forces on drug use and on social perceptions of drugs, including how social perceptions of drugs are influenced by gender, class, and ethnicity.

ULO5: Identify the influence of local, regional, and global factors on drug production and distribution.

ULO6: Apply anthropological knowledge to real world issues and clarify your own position on drugs to be able to make informed decisions about drug policy.

Late Submission

Please note that in 2022 the Faculty of Arts has adopted a new policy regarding late submission of work:

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – 10 marks out of 100 credit will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for

timed assessments – e.g. quizzes, online tests.

Practically speaking, though, this doesn't apply to ANTH1006 because all the assessment tasks are online quizzes and you have an extended period of time to take them.

So here's what you need to know about missing an assessment task in ANTH1006:

Because each quiz and exam is available to take for 6 days, we will not grant make-up quizzes or exams (via a Special Consideration request) without documentation that you were incapacitated for 3 or more days during that period. So don't leave these assessments until the last minute, in case you get sick on the last couple days it is available! Any extensions must be requested in writing with valid documentation of their necessity (e.g. medical certificate) through the university's **Special Consideration** procedure. See <https://students.mq.edu.au/study/my-study-program/special-consideration> for information about whether your circumstances qualify under the university's policy and information on how to apply for consideration.
