Co-badged status

Unit description

This unit provides extended formal academic support for students concurrently enrolled in the Financial Risk Management unit of the CPA program. It provides knowledge, principles, skills and an appreciation of the treasury function in a corporate environment. It presents an overview of various aspects of treasury focusing on the identification and management of financial risks that organisations face. The unit also addresses investment evaluation, the sourcing of necessary funds for an organisation, and the application of and accounting for hedge instruments. In addition, the unit considers the need for suitable controls within the treasury function.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Demonstrate an understanding of the different financial risks that companies face

and formulate strategies to manage these financial risks

ULO2: Analyse practical elements of accounting for derivatives, including embedded derivatives used for hedging purposes

ULO3: Apply accounting standards for recording financial transactions

ULO4: Analyse the significance for companies having adequate controls to safeguard

against financial loss and propose specific policies and procedures to reduce risk

General Assessment Information

Late submission of assessments

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of teh total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be acepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assdessments, eg online tests.

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the ne wdate for that student. The late submission penalties above then apply as of the new due date.

Assessment Tasks

Name	Weighting	Hurdle	Due
Class tests 1	20%	No	22 February
Class test 2	20%	No	22 March
Business Report	20%	No	6 May
Class participation	10%	No	Each week
CPA External Exam	30%	Yes	7 April to 24 April

Class tests 1

Assessment Type 1: Quiz/Test Indicative Time on Task 2: 20 hours Due: **22 February** Weighting: **20%** An online class test comprising of multiple-choice questions will be conducted in computer labs. This test is designed to provide feedback to students on their level of understanding of key topics and concepts covered and to identify any particular learning challenges or areas of difficulties.

On successful completion you will be able to:

- Demonstrate an understanding of the different financial risks that companies face and formulate strategies to manage these financial risks
- Analyse practical elements of accounting for derivatives, including embedded derivatives
 used for hedging purposes
- · Apply accounting standards for recording financial transactions
- Analyse the significance for companies having adequate controls to safeguard against financial loss and propose specific policies and procedures to reduce risk

Class test 2

Assessment Type 1: Quiz/Test Indicative Time on Task 2: 20 hours Due: **22 March** Weighting: **20%**

An online class test comprising of multiple-choice questions will be conducted in computer labs. This test is designed to provide feedback to students on their level of understanding of key topics and concepts covered and to identify any particular learning challenges or areas of difficulties.

On successful completion you will be able to:

- Demonstrate an understanding of the different financial risks that companies face and formulate strategies to manage these financial risks
- Analyse practical elements of accounting for derivatives, including embedded derivatives used for hedging purposes
- · Apply accounting standards for recording financial transactions
- Analyse the significance for companies having adequate controls to safeguard against financial loss and propose specific policies and procedures to reduce risk

Business Report

Assessment Type 1: Case study/analysis Indicative Time on Task 2: 36 hours Due: **6 May**

Weighting: 20%

Students will write a 1,500 word report (worth 10%) and each student will give a 5-minute presentation (worth 10%) outlining their findings and recommendations. The focus of the task will be to identify the key financial risks of a (public listed) company allocated to the team. The team will need to propose methods to manage the risks and identify suitable benchmarks to measure Treasury's performance.

On successful completion you will be able to:

- Demonstrate an understanding of the different financial risks that companies face and formulate strategies to manage these financial risks
- Analyse practical elements of accounting for derivatives, including embedded derivatives
 used for hedging purposes

Class participation

Assessment Type 1: Participatory task Indicative Time on Task 2: 24 hours Due: **Each week** Weighting: **10%**

Students are required to actively participate in class discussions both individually and in a group context when required. Prior preparation is necessary for active participation. The participation mark will be a result of attempting to participate, as well as the quality and frequency of that participation. Class participation is designed to encourage and help students achieve the learning outcomes of this unit.

On successful completion you will be able to:

- Demonstrate an understanding of the different financial risks that companies face and formulate strategies to manage these financial risks
- Analyse practical elements of accounting for derivatives, including embedded derivatives
 used for hedging purposes
- · Apply accounting standards for recording financial transactions
- Analyse the significance for companies having adequate controls to safeguard against financial loss and propose specific policies and procedures to reduce risk

CPA External Exam

Assessment Type 1: Examination Indicative Time on Task 2: 20 hours Due: **7 April to 24 April** Weighting: **30% This is a hurdle assessment task (see <u>assessment policy</u> for more information on hurdle assessment tasks)** Examination administered by CPA Australia. CPA Australia will advise on the format and topics included in the final exam. Students need to achieve at least a PASS mark in this CPA external examination. If students do not pass this CPA examination, students will not pass this unit.

On successful completion you will be able to:

- Demonstrate an understanding of the different financial risks that companies face and formulate strategies to manage these financial risks
- Analyse practical elements of accounting for derivatives, including embedded derivatives
 used for hedging purposes
- · Apply accounting standards for recording financial transactions
- Analyse the significance for companies having adequate controls to safeguard against financial loss and propose specific policies and procedures to reduce risk

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Writing Centre for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation
