Unit description

In today's changing marketplace, firms facing intense competition and changing customer demands. In the competitive environment, firms need to scan the market for business opportunities. Orchestrating the right combination of strategies for expansion, extension, and diversification, as well as choosing the right business environment to compete in, are important to achieve organisational goals. This unit develops students' practical competencies to synthesise marketing theories and creatively formulate and implement marketing strategies that respond to market opportunities. Students will learn to assess and critically analyse information to make strategic marketing decisions. Students will practice communicating ideas verbally and in written to potential stakeholders individually and in a group setting to address marketing strategy challenges

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Synthesise marketing theories and creatively formulate and implement marketing

strategies that respond to market opportunities.

ULO2: Assess and critically analyse information to make strategic marketing decisions.

ULO3: Communicate ideas verbally and in written to potential stakeholders individually and in a group setting to address marketing strategy challenges.

General Assessment Information

Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Table 1: Penalty calculation based on submission time

Submission time after the due date (including weekends)	Penalty (% of available assessment task mark)	Example: for a non-timed assessment task marked out of 30
< 24 hours	10%	10% x 30 marks = 3-mark deduction
24-48 hours	20%	20% x 30 marks = 6-mark deduction
48-72 hours	30%	30% x 30 marks = 9-mark deduction
72-96 hours	40%	40% x 30 marks = 12-mark deduction
> 96 hours	100%	Assignment won't be accepted

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.
