Unit description
How can disruptive strategic thinking be deployed to develop or protect competitive advantage? The most innovative and successful companies today have all managed to fundamentally disrupt and reshape existing industries, or create completely new ones. What are the strategies, business models, and technologies that lie behind this? Is the strategic thinking that is required to successfully compete in today’s digital world actually different? And how could you deploy disruptive strategic thinking to reshape your own company and industry?

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Define a range of disruptive technologies and their implications on organisations and industry sectors
ULO2: Develop strategies and approaches to create innovative business models
ULO3: Apply strategic thinking and tools to evaluate the impact of new innovations and the plausibility of successfully adoption

General Assessment Information
Late submissions of assessments Unless a Special Consideration request has been
submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

**Special Consideration**

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation
Delivery and Resources

Required text
There is no required textbook for this unit. Please refer to the weekly required readings in your online unit. All readings are available via the Macquarie University library and do not need to be purchased separately.

Delivery method
This unit will be delivered entirely online via the Coursera Learning Management System. Access to a personal computer is required to access the resources and learning materials on Coursera.

Unit Schedule

Live Events
Please refer to the timetable information in eStudent or the GMBA website for Live Event session timings. Please note: The teaching schedule is subject to change. Please refer to your Coursera unit for a detailed Live Event schedule.

Live Events will take place via Zoom each week starting in Week 1 and ending in Week 6. The links to the events are available via Live Events in the Coursera unit.

You will need to use your Macquarie University student Zoom account to access the Live Events.

Attending the Live Event each week is an opportunity to engage with the unit content, your Unit Convenor, and classmates. Students are strongly advised to attend the Live Events. Recordings of the live events will be made available within 24 hours of the event and can be accessed via the Coursera unit content.
