Unit description
This is a unit in the economics of the labour market. It deals with some of the most fascinating, important and vexed questions in economics. It aims to provide a thorough understanding of what determines the ability of firms and economies to create jobs and remunerate their workers. The unit will address issues of wage stagnation, wage inequality and unemployment, as well as issues such as training, wage growth and returns to skills. By answering these questions, you will be equipped to understand the dynamics of inequality both in Australia as well as globally. Importantly, policy can do a great deal to ameliorate workers’ opportunities in the labour markets and to satisfy business needs for workers, skills and expertise. The unit will focus on the most important policies and their effectiveness in boosting labour market opportunities and reducing inequality.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Demonstrate a solid understanding of labour market theory.
ULO2: Recognise how labour market theory aids decision-making by individuals, business and government.
ULO3: Communicate effectively on labour market and inequality issues.
ULO4: Identify key concepts and causes of inequality.
General Assessment Information

Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.
