Unit description
This unit provides an introduction to the theory and practice of development economics. It develops a critical understanding of the problems facing underdeveloped and developing countries. It provides an in-depth analysis of the different explanations and measures that may be taken to foster economic development. An integral component of the unit is discussion of the most recent research by economists who work in the field, testing and devising cheap and feasible policy solutions to improve outcomes for the global poor. The unit investigates and evaluates the effectiveness of existing policy measures. Students will develop skills in writing and oral communication.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Identify and describe theories of economic development.
ULO2: Analyse and explain how economic agents, including the poor, make economic decisions and the consequences of those decisions.
ULO3: Critically evaluate theory and policy designed to improve the well-being of the
**General Assessment Information**

**Late submissions of assessments**

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

**Table 1: Penalty calculation based on submission time**

**Special Consideration**

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.

Mid-session online test
Assessment Type 1: Quiz/Test
Indicative Time on Task 2: 15 hours
Due: Week 7, Monday April 4 2022
Weighting: 25%

A 60-minute online open book Mid-Session Test will include 4 questions, where students will answer 2 out of 4 questions of their choice. This is a set of short essay questions.

On successful completion you will be able to:
- Identify and describe theories of economic development.
- Analyse and explain how economic agents, including the poor, make economic decisions and the consequences of those decisions.

Presentation of group work
Assessment Type 1: Presentation
Indicative Time on Task 2: 20 hours
Due: Week 3-12 (presentation and submission)
Weighting: 25%

Teams of 4 individuals on weekly topics. Individual assessments will reflect within-team divisions of labour as follows: 1. Research background with 3-4 references, 2. Motivations of relevance of his/her point about solving well defined policy issues in the context of development, 3. Clarity of presentation, 4. Adequacy of response to the questions, (4 members in each team). Depending on enrolment, these group works will deliver presentations during lecture/tutorial time (2 hours block) over the course of the session. This assessment will involve submission of max 5 ppt slides per team.

On successful completion you will be able to:
- Analyse and explain how economic agents, including the poor, make economic decisions and the consequences of those decisions.
- Critically evaluate theory and policy designed to improve the well-being of the poor.

Final Paper
Assessment Type 1: Essay

Due: By Monday May 30th, Week 13 2022
Weighting: 50%

Written individual analysis on topics TBD and TBC after discussion with Unit Covenor, max 1500 words.

On successful completion you will be able to:

• Analyse and explain how economic agents, including the poor, make economic decisions and the consequences of those decisions.
• Critically evaluate theory and policy designed to improve the well-being of the poor.

1 If you need help with your assignment, please contact:

• the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
• the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Welcome to ECON3036! Together we will address some of the most interesting and challenging questions concerning economic development and its impact on societies.

In preparation for our in-class discussions, you will be asked to read the items from the weekly reading list regularly so you get the most out of our in-class discussions. Some of the chosen readings are from Nobel Prize in Economics recipients, such as Amartya Sen (on the concept and measurement of development), Esther Duflo (on the role of gender in development policy), Paul Romer (on the role of technological change), Elinor Ostrom (on how to enforce community-based social norms for the common good), Douglass North (on the role of institutions for development).

Our weekly meetings involve 1 hour recorded material and 2 hours face-to-face meetings. In each week, students will be asked to engage with about 1-hour recorded material before coming to each weekly meetings. The recorded material aims to expose students to the main ideas we will discuss together during our face-to-face meetings. By listening to this recorded material each week, students will be better prepared to participate in class discussion. Learning is more fun if it involves exchanging ideas, so please come to class with some preparation.

In our first meeting we will discuss how best to organise the delivery of the second assessment task, which involves team work. We will form teams of 4-5 individuals and members of each team will discuss how they can individually contribute to the presentations on weekly topics.
Please be reminded that lecture notes and lecture recordings are good summaries of the weekly readings, but I hope you will do your independent readings as well.

Finally, although this unit does not have a prescribed text, you can consult there are excellent development economics textbooks you can consult to support your learning. Feel free to ask for advice if you need.

Again, welcome to ECON3036!

Note: *the intended delivery mode may need to change after the start of the session due to the evolving covid situation and students need to ensure they keep up with iLearn Announcements made during the session accordingly.*
