Unit description

This unit focuses on the principles of starting-up a new business venture. Throughout the session, we will discuss and critically reflect upon the economic, technological, societal, and global dimensions of entrepreneurship, and explore a range of concepts, models and approaches that represent the theory of entrepreneurship. You will apply this knowledge to practice by working in teams to experience multiple aspects of a new venture start-up. These will include ethical, societal and financial considerations, the creativity of developing a business idea, the development and formulation of a business model and plan, as well as unique marketing issues, ownership, growth and global aspects of entrepreneurship. Successful completion of the unit will provide you with knowledge and tools that will support you in your own entrepreneurial endeavours.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Review entrepreneurship education literature and critically assess the methods and approaches used.

ULO2: Design new business ventures with the consideration of a range of economic, societal, technological and global aspects of entrepreneurship.

ULO3: Work in a team to communicate the challenges and tasks involved in a new venture start-up, both orally and via the written word.

ULO4: Critically reflect on the theoretical concepts and nature of entrepreneurship to solve problems.

General Assessment Information

Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Table 1: Penalty calculation based on submission time

Submission time after the due date (including weekends)	Penalty (% of available assessment task mark)	Example: for a non-timed assessment task marked out of 30
< 24 hours	10%	10% x 30 marks = 3-mark deduction
24-48 hours	20%	20% x 30 marks = 6-mark deduction
48-72 hours	30%	30% x 30 marks = 9-mark deduction
72-96 hours	40%	40% x 30 marks = 12-mark deduction
> 96 hours	100%	Assignment won't be accepted

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.
