Unit description
Cyber-security and privacy are two of the biggest issues facing businesses operating in the Information Age. This unit explores how businesses both face and respond to such threats and opportunities as they integrate the Internet into their existing operations and new products/technologies in Australia and internationally. This unit is designed to give students practical skills to identify and mitigate those cyber-security and privacy risks, and to resolve legal disputes that may emerge from them, whether as a manager, an employee, or as an external consultant.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Identify and synthesise cybersecurity risks facing modern businesses
ULO2: Analyse practical implications of different theories about privacy and governance strategies necessary for effective business leadership both before and after a cyber-
U LO3: Apply Australian and foreign laws and ethics to determine how businesses can build trust through managing personal information and confidential business information

U LO4: Evaluate privacy risks through applying Privacy Impact Assessment methodologies for existing and new products/processes within a business

General Assessment Information

Late Assessment Submission Penalty

From 1 July 2022, Students enrolled in Session based units with written assessments will have the following late penalty applied. Please see https://students.mq.edu.au/study/assessment-exams/assessments for more information.

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11:55 pm. A 1-hour grace period is provided to students who experience a technical concern.

Assessments where Late Submissions will be accepted

In this unit, late submissions will be accepted as follows:

Cybersecurity Breach Response (Report), YES, Standard Late Penalty applies
Privacy Hot Topic Debate, YES, Standard Late Penalty applies
Privacy Impact Assessment, YES, Standard Late Penalty applies

For any late submission of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for Special Consideration.

To be eligible to pass this unit, it is necessary to obtain a mark of at least 50% in the unit overall.

How Feedback will be provided to you on your performance in your Assessment Tasks: A marking rubric will be provided to you which will deliver feedback to you on your performance in your Report on Employee Culture, your Ransomware Debate Videos and your Privacy Impact Assessment. The marking rubrics can be found in the turnitin submission links when available.

Self-Plagiarism: Macquarie's plagiarism policy (see link below) does not allow this, there are no exemptions on similarity for these type of situations and the similarity number will only increase once both are in the Turnitin database and match with each other. Tread very carefully if this situation applies to you, your discussion points will have to be almost completely different in each unit. Consider this early fair warning.

Assessment Tasks

<table>
<thead>
<tr>
<th>Name</th>
<th>Weighting</th>
<th>Hurdle</th>
<th>Due</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cybersecurity Breach Response</td>
<td>40%</td>
<td>No</td>
<td>Checkpoints Wk4/5/6 (4% each) Report due: Wk7(28%)</td>
</tr>
<tr>
<td>Privacy Hot Topic Debate</td>
<td>20%</td>
<td>No</td>
<td>Video: Wk9 (15%) / Rebuttal Wk10 (5%)</td>
</tr>
<tr>
<td>Privacy Impact Assessment</td>
<td>40%</td>
<td>No</td>
<td>Week 13</td>
</tr>
</tbody>
</table>

**Cybersecurity Breach Response**

Assessment Type ¹: Report  
Indicative Time on Task ²: 35 hours  
Due: Checkpoints Wk4/5/6 (4% each) Report due: Wk7(28%)  
Weighting: 40%

Acting in the role of a Chief Information Security Officer for a company that has just suffered a major cybersecurity attack, each student will prepare a report to the Board of Directors of the company advising what the vulnerabilities were in the business and what the company should do in response to the attack. Length: 2,500-word.

On successful completion you will be able to:

- Identify and synthesise cybersecurity risks facing modern businesses
- Analyse practical implications of different theories about privacy and governance strategies necessary for effective business leadership both before and after a cyber-attack
- Apply Australian and foreign laws and ethics to determine how businesses can build trust through managing personal information and confidential business information

**Privacy Hot Topic Debate**

Assessment Type ¹: Debate  
Indicative Time on Task ²: 20 hours  
Due: Video: Wk9 (15%) / Rebuttal Wk10 (5%)  
Weighting: 20%
Students will debate a current privacy business problem / challenge. Students will prepare a 6-10 minute video of their ethical, financial and legal arguments for- or against - the matter and upload their video to iLearn. Each student will then be randomly allocated to another (opposing) student’s video to which they will prepare a short rebuttal video which they will also upload to iLearn.

On successful completion you will be able to:

- Analyse practical implications of different theories about privacy and governance strategies necessary for effective business leadership both before and after a cyber-attack
- Apply Australian and foreign laws and ethics to determine how businesses can build trust through managing personal information and confidential business information

**Privacy Impact Assessment**

Assessment Type ¹: Report
Indicative Time on Task ²: 35 hours
Due: **Week 13**
Weighting: **40%**

Each student will prepare a privacy impact assessment of the risks and opportunities that exist in a proposed new business activity. Length: 2,500-word.

On successful completion you will be able to:

- Analyse practical implications of different theories about privacy and governance strategies necessary for effective business leadership both before and after a cyber-attack
- Apply Australian and foreign laws and ethics to determine how businesses can build trust through managing personal information and confidential business information
- Evaluate privacy risks through applying Privacy Impact Assessment methodologies for existing and new products/processes within a business

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment

https://unitguides.mq.edu.au/unit_offerings/154691/unit_guide/print
• the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

## Delivery and Resources

### Coronavirus (COVID-19) Update

Any references to on-campus delivery below may no longer be relevant with the current situation in Sydney (Always check timetables.mq.edu.au for any updates and ilearn)

<table>
<thead>
<tr>
<th>Required Text:</th>
<th>Required Texts: As Cyber Security and Privacy are such fast-moving topics, by the time it reaches print a textbook is likely to be significantly out of date. Consequently, there will be no prescribed textbook. Instead, required readings will be uploaded on ilearn.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unit Web Page:</td>
<td>available on iLearn</td>
</tr>
<tr>
<td>Technology Used and Required:</td>
<td>Students will require access to a computer and to the Internet so as to undertake research and to prepare their answers for their assessment tasks. You will need a mobile phone with a camera or a GoPro (or equivalent) to record your debate videos. Software: iLearn, VLC Media Player, Microsoft Office, Adobe Acrobat Reader, Internet Browser, Email Client Software, Adobe Premiere Pro can be used to edit videos.</td>
</tr>
<tr>
<td>Delivery format and other details:</td>
<td>Lectures: There will be pre-recorded lectures that will constitute the first hour of the lecture with the second hour being a &quot;live&quot; consultation / catchup with the UC on Tuesdays afternoons from 4 - 5pm. The timetable for classes can be found on the University website at: <a href="http://timetables.mq.edu.au">http://timetables.mq.edu.au</a> Students must attend all tutorials. Students must attend the tutorial in which they are enrolled and may not change tutorials without the prior permission of the course convenor.</td>
</tr>
<tr>
<td>Recommended Readings:</td>
<td>There are many cybersecurity and privacy sources of information online. A few worth looking at include: • SecurityAffairs: <a href="http://securityaffairs.co/wordpress/">http://securityaffairs.co/wordpress/</a> • Krebs on Security: <a href="https://krebsonsecurity.com/">https://krebsonsecurity.com/</a></td>
</tr>
<tr>
<td>Other Course Materials:</td>
<td>Will be made available on iLearn</td>
</tr>
</tbody>
</table>

</tr>
<tr>
<td>Classes &amp; Class Preparation</td>
<td>60</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>150</strong></td>
</tr>
</tbody>
</table>

This unit consists of 13 weekly lectures and 12 tutorials (no tutorial in week 1). Many tutorials will require active participation in small group exercises.

### Inherent Requirements to complete the unit successfully?

Both individual work (on your assessment tasks) and group work (for your exercises in tutorials) are required to successfully complete this Unit. Students will need to be capable of:

a) listening to the recorded lecture, attending consultation / catch up Tuesdays 4-3pm
b) actively engaging in tutorial exercises;

c) completing written and video tasks.

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central (https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- Academic Progression Policy
- Assessment Policy
- Fitness to Practice Procedure
- Assessment Procedure
- Complaints Resolution Procedure for Students and Members of the Public
- Special Consideration Policy

Students seeking more policy resources can visit Student Policies (https://students.mq.edu.au/support/study/policies). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit Policy Central (https://policies.mq.edu.au) and use the search tool.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/admin/other-resources/student-conduct

Results

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Academic Integrity

At Macquarie, we believe academic integrity – honesty, respect, trust, responsibility, fairness and
courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free online writing and maths support, academic skills development and wellbeing consultations.

Student Support
Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

The Writing Centre
The Writing Centre provides resources to develop your English language proficiency, academic writing, and communication skills.

- Workshops
- Chat with a WriteWISE peer writing leader
- Access StudyWISE
- Upload an assignment to Studiosity
- Complete the Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.

- Subject and Research Guides
- Ask a Librarian

Student Services and Support
Macquarie University offers a range of Student Support Services including:

- IT Support
- Accessibility and disability support with study
- Mental health support
- Safety support to respond to bullying, harassment, sexual harassment and sexual assault
- Social support including information about finances, tenancy and legal issues

Student Enquiries
Got a question? Ask us via AskMQ, or contact Service Connect.

IT Help
For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University’s IT, you must adhere to the Acceptable Use of IT Resources Policy.
The policy applies to all who connect to the MQ network including students.

**Changes from Previous Offering**

Due to the rapid development of cybersecurity and privacy issues and events in the real-world, the content of this unit is updated each offering.

We have updated some of the unit content and taken the feedback from the previous offerings to make the unit more accommodating to students varying needs.

**Research and Practice, Global & Sustainability**

This unit uses research from academic researching at Macquarie University, including:

- John Selby, Data Localisation Laws: Trade Barriers or Legitimate Responses to Cybersecurity Risks, or Both? (2017) International Journal of Law & Information Technology

and numerous primary and secondary legal materials published through AUSTLII <http://www.austlii.edu.au> and other external sources.

The unit also builds upon the convenor’s practical experience working as a lawyer resolving privacy disputes and advising on cybersecurity risks, and presentations he has made to the United Nations Internet Governance Forum on cybercrime and cybersecurity issues. The convenor attended a GDPR training course in Brussels.
