Unit description
This unit focuses on the core knowledge and skills that underpin a career in health care as a researcher, manager, or practitioner. In this unit, you will explore and reflect on professionalism in the health context focusing on the principles and ethics in health care and research, and the individual and social determinants of health. Learning activities will include interactive tutorials, online activities, and expert lectures. Through this unit, you will continue your development as a reflective learner with a focus on the graduate capabilities of a problem solver and an ethical and reflective professional.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:
ULO1: Apply critical thinking, written and verbal communication, evidence-based practice, teamwork, and reflection in relation to life-long learning in clinical science.
ULO2: Explain the relationship between the individual, society and health.
ULO3: Apply and relate ethical principles to clinical science research and practice.

General Assessment Information
Grade descriptors and other information concerning grading are contained in the Macquarie University Assessment Policy.

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenor.

Students will be awarded a final grade and a mark, which must correspond to the grade descriptors specified in the Assessment Procedure (clause 128).

To pass this unit, you must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

Further details for each assessment task will be available on iLearn.

Late Submissions
Unless a Special Consideration request has been submitted and approved, a 5% penalty (OF THE TOTAL POSSIBLE MARK) will be applied each day a written assessment is not submitted, up to the 7th day (including weekends). After the 7th day, a grade of ‘0’ will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For example:

<table>
<thead>
<tr>
<th>Number of days (hours) late</th>
<th>Total Possible Marks</th>
<th>Deduction</th>
<th>Raw mark</th>
<th>Final mark</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 day (1-24 hours)</td>
<td>100</td>
<td>5</td>
<td>75</td>
<td>70</td>
</tr>
<tr>
<td>2 days (24-48 hours)</td>
<td>100</td>
<td>10</td>
<td>75</td>
<td>65</td>
</tr>
<tr>
<td>3 days (48-72 hours)</td>
<td>100</td>
<td>15</td>
<td>75</td>
<td>60</td>
</tr>
<tr>
<td>7 days (144-168 hours)</td>
<td>100</td>
<td>35</td>
<td>75</td>
<td>40</td>
</tr>
<tr>
<td>&gt;7 days (&gt;168 hours)</td>
<td>100</td>
<td>—</td>
<td>75</td>
<td>0</td>
</tr>
</tbody>
</table>

Late submission of time sensitive tasks, such as timetabled tests/exams, scheduled performance assessments/presentations, scheduled practical assessments/labs, will be addressed by the unit convenor in a special consideration application.
Special Consideration

If you are unable to complete an assessment task on or by the specified date due to circumstances that are unexpected, unavoidable, significantly disruptive and beyond your control, you may apply for special consideration in accordance with the Special Consideration Policy. Applications for special consideration must be supported by appropriate evidence and submitted via ask.mq.edu.au.

</tr>
</tbody>
</table>

**Practical Assessment 1**

Assessment Type: Practice-based task
Indicative Time on Task: 35 hours
Due: Week 2, week 4
Weighting: 40%

A group assessment involving the production of a public health campaign video that is inclusive of the individual and social determinants of health.

30% will be a group mark (10% for the process of the production, 20% for the final product). 10% will be an individual mark, peer marked with feedback on teamwork of the individual.

On successful completion you will be able to:

- Apply critical thinking, written and verbal communication, evidence-based practice, teamwork, and reflection in relation to life-long learning in clinical science.
- Explain the relationship between the individual, society and health.

**Practical Assessment 2**

Assessment Type: Practice-based task
Indicative Time on Task: 15 hours
Due: Week 5
Weighting: 10%

Ethical dilemma in class discussion with written notes allowed. Marked as coarse grading.

On successful completion you will be able to:
  • Apply critical thinking, written and verbal communication, evidence-based practice, teamwork, and reflection in relation to life-long learning in clinical science.
  • Apply and relate ethical principles to clinical science research and practice.

Quiz Assessment
Assessment Type: Quiz/Test
Indicative Time on Task: 10 hours
Due: Week 3, week 4
Weighting: 20%

Two short in-class quizzes using MCQs and SAQs to assess lecture, tutorial and reading material conducted under exam conditions. Each quiz is worth 10%

On successful completion you will be able to:
  • Explain the relationship between the individual, society and health.
  • Apply and relate ethical principles to clinical science research and practice.

Reflective Portfolio Assessment
Assessment Type: Reflective Writing
Indicative Time on Task: 20 hours
Due: Week 1 and exam period
Weighting: 30%

Two 500 word reflections on prompt questions related to the B.ClinSc graduate learning outcomes. Part 1 will be worth 10% and graded as pass/fail with mandatory peer feedback (worth 2 marks of the 10%).

Part 2 will be worth 20% and graded with staff feedback.

On successful completion you will be able to:
- Apply critical thinking, written and verbal communication, evidence-based practice, teamwork, and reflection in relation to life-long learning in clinical science.
- Apply and relate ethical principles to clinical science research and practice.

1 If you need help with your assignment, please contact:
- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

**Delivery and Resources**

As a student enrolled in MEDI2400 Foundations in Ethics and Society, you will engage in a range of online and face-to-face (or zoom) learning activities, including readings, online modules, videos, lectures and weekly tutorials (2 x 1hr). Details can be found on the MEDI2400 iLearn site.

There is no textbook for this unit and readings will be accessible through Leganto.

**Unit Schedule**

<table>
<thead>
<tr>
<th>Week</th>
<th>Topic</th>
<th>Weekly Learning Objectives</th>
<th>Unit Learning Outcomes</th>
</tr>
</thead>
</table>
| 1    | Orientation, Critical Thinking and Reflection | 1. Apply critical thinking to solve complex problems.  
2. Apply reflection for life-long learning. | ULO1 - Apply critical thinking, written and verbal communication, evidence-based practice, teamwork, and reflection to life-long learning in clinical science. |
| 2    | Individual Determinants of Health | 1. Describe the Health Belief Model.  
2. Discuss some limitations of the Health Belief Model.  
3. Link individual characteristics to health outcomes.  
4. Understand some barriers to treatment. | ULO2 - Explain the relationship between the individual, society and health. |
<table>
<thead>
<tr>
<th>Week</th>
<th>Topic</th>
<th>Weekly Learning Objectives</th>
<th>Unit Learning Outcomes</th>
</tr>
</thead>
</table>
| 3.   | Social Determinants of Health | 1. Identify the social determinants of health.  
2. Explain how the way society is structured leads to unequal health outcomes.  
3. Develop an understanding of the importance of culture and beliefs in healing. | ULO2 - Explain the relationship between the individual, society and health. |
2. Identify the theories of morality.  
3. Practical ethical reasoning.  
4. Identify the principles of bioethics.  
5. Practice ethical decision making.  
6. Identify ethics in biomedical research. | ULO1 - Apply critical thinking, written and verbal communication, evidence-based practice, teamwork, and reflection to life-long learning in clinical science.  
ULO3 - Apply and relate ethical principles to clinical science research and practice. |
| 5.   | MEDI2400 Wrap Up | 1. Practice ethical reasoning.  
2. Communicating in classroom discussions.  
3. Identify aspects of ethics in human and animal research.  
4. Understand the role of the determinants of health when promoting health behaviour change. | ULO1 - Apply critical thinking, written and verbal communication, evidence-based practice, teamwork, and reflection to life-long learning in clinical science.  
ULO3 - Apply and relate ethical principles to clinical science research and practice. |

**Policies and Procedures**

Macquarie University policies and procedures are accessible from Policy Central (https://policy.s.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- Academic Progression Policy
- Assessment Policy
- Fitness to Practice Procedure
- Assessment Procedure
Students seeking more policy resources can visit Student Policies (https://students.mq.edu.au/support/study/policies). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit Policy Central (https://policies.mq.edu.au) and use the search tool.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/admin/other-resources/student-conduct

**Results**

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

**Academic Integrity**

At Macquarie, we believe academic integrity – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free online writing and maths support, academic skills development and wellbeing consultations.

**Student Support**

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

**The Writing Centre**

The Writing Centre provides resources to develop your English language proficiency, academic writing, and communication skills.

- Workshops
- Chat with a WriteWISE peer writing leader
- Access StudyWISE
- Upload an assignment to Studiosity
- Complete the Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.
Student Services and Support

Macquarie University offers a range of Student Support Services including:

- IT Support
- Accessibility and disability support with study
- Mental health support
- Safety support to respond to bullying, harassment, sexual harassment and sexual assault
- Social support including information about finances, tenancy and legal issues

Student Enquiries

Got a question? Ask us via AskMQ, or contact Service Connect.

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Inclusion and Diversity

Social inclusion at Macquarie University is about giving everyone who has the potential to benefit from higher education the opportunity to study at university, participate in campus life and flourish in their chosen field. The University has made significant moves to promote an equitable, diverse and exciting campus community for the benefit of staff and students. It is your responsibility to contribute towards the development of an inclusive culture and practice in the areas of learning and teaching, research, and service orientation and delivery. As a member of the Macquarie University community, you must not discriminate against or harass others based on their sex, gender, race, marital status, carers' responsibilities, disability, sexual orientation, age, political conviction or religious belief. All staff and students are expected to display appropriate behaviour that is conducive to a healthy learning environment for everyone.

Professionalism

In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability embedded in all our courses.

As part of developing professionalism, students are expected to attend all small group interactive sessions including clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded (e.g., face-to-face lectures); however, you are encouraged to avoid relying upon such material as they
do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect for the academic staff who have worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please arrive at all learning activities on time, and if you are unavoidably detained, please join the activity as quietly as possible to minimise disruption. Phones and other electronic devices that produce noise and other distractions must be turned off prior to entering class. Where your own device (e.g., laptop) is being used for class-related activities, you are asked to close down all other applications to avoid distraction to you and others. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.
