Unit description

This unit has two components. The first component examines the framework and techniques that are used to prepare general purpose financial reports for companies, and in particular the techniques used to prepare the consolidated financial statements for a corporate group. This component builds on first and second year financial accounting units and provides students with the technical accounting knowledge to prepare and use company financial statements. Political and ethical issues surrounding recent financial reporting controversies are also considered. The second component introduces students to the perspective of acting as a trusted business advisor. This component builds on prior knowledge of accounting, accounting information systems, compliance and business strategy, and applies these skills in a real-world setting. Both components of the unit develop graduate capabilities centred on higher order analysis and effective communication skills.

## General Assessment Information

### Late Assessment Submission Penalty

Unless an application for Special Consideration has been submitted and approved, no extensions will be granted. **A 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted**, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

### Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.

### Contacting staff

Please use **email** ([accg3008@mq.edu.au](mailto:accg3008@mq.edu.au)) as the first form of contact.

### Classes

Classes in ACCG3008 are composed of lectures and tutorials. The learning outcomes of this unit can only be achieved through self-study and independent learning supported by lectures and tutorials. The lectures provide a general overview of the topics highlighting a number of concepts and techniques. The tutorials complement lectures by providing opportunities to further explore all relevant concepts and techniques. Both lectures and tutorials will only support your learning if you prepare them thoroughly by completing the recommended readings and the pre-set tutorial questions beforehand.

The lectures are pre-recorded and lecture recordings are available on iLearn.

One-hour weekly tutorials start from **Week 2**. The timetable for tutorial classes can be found on the University website at: <http://www.timetables.mq.edu.au/>. You must enroll in a tutorial before the session starts and finalize your tutorial enrolment by the end of Week 2. You should attend your registered tutorial. The tutorials may be undertaken either face-to-face or online via Zoom.
