Unit description
This unit addresses the practical application of financial evaluation and appraisal techniques commonly used by firms and by investors. A primary focus is the optimisation of value creation by the firm as it undertakes corporate finance activities. Within this context, the unit addresses the various capital requirements of the firm as it progresses through the corporate development life cycle as an enterprise. The unit builds on prior knowledge of key corporate finance concepts with progression involving more detail, increased complexity and an emphasis on practical applications within financial markets.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates
