Unit description
This unit focuses on infrastructure, property and resource investment and financing, including tools and techniques which can be applied to successful projects and investments. A key focus will be on practical application to real-world projects.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Explain and evaluate the infrastructure, resource and property industry structure and value chain together with relevant financing tools and techniques.

ULO2: Critically assess projects in this industry using these techniques to find solutions with address risk and return requirements.

ULO3: Design an investment proposal for a professional practice project which uses appropriate analytical techniques and delivers practical solution(s) in response to the
needs of relevant stakeholders.

**General Assessment Information**

**Late Assessment Submission Penalty (written assessments)**

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of ‘0’ will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for Special Consideration.

Weighting: 40%

A time-constrained task based on scenarios. Open book.

On successful completion you will be able to:

- Explain and evaluate the infrastructure, resource and property industry structure and value chain together with relevant financing tools and techniques.
- Critically assess projects in this industry using these techniques to find solutions with address risk and return requirements.
- Design an investment proposal for a professional practice project which uses appropriate analytical techniques and delivers practical solution(s) in response to the needs of relevant stakeholders.

1 If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this
type of assessment

- the Writing Centre for academic skills support.

Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Required Text

There is no required text. Readings are included in iLearn. Students should assume these readings are examinable unless otherwise advised.

Assumed Knowledge

This unit requires students to perform arithmetic (add, subtract, multiply, divide), to work with exponents (raise to the power of), and to perform algebraic manipulation of simple equations. For example, given the arithmetical answer to a calculation, it is expected that you can solve for one of the inputs. If $534 = 221 + X - 440$, what is $X$?

Additionally, this unit requires students to solve mathematical problems using spreadsheet software by coding formulas into cells in the spreadsheet.

Students should be familiar with financial mathematics such as simple interest and the time value of money.

- If $200 is borrowed for 12 months at an interest rate of 6% pa to be paid monthly in arrears, how much interest is paid each month?
- What is the effective annual interest rate?

The web page for this unit can be found at: https://ilearn.mq.edu.au/login/

Technology Used and Required

Here you will find forums, downloadable resources and links to important pages.

The forum allows you to communicate with other students and lecturer(s) and may provide supplementary material.

You are requested to post your questions on the forums at least 24 hours prior to the assignment submission date or the examination date. Questions posted after that time may not be answered. Please try to not leave your questions to the last few days.

Important Notice:

It is important that you familiarise yourself with the unit’s iLearn site.

All students should check iLearn regularly and look for updates and distribution of materials...
related to the unit or assessments and participate in forum discussions.

**Assumed access to technology:** Access to a computer with word processing and spreadsheet capability is assumed, as is general student computer literacy. A recent version of Excel is the preferred choice of spreadsheet.

**Delivery Format and Other Details**

The timetable for classes can be found on the University web site at: [http://www.timetables.mq.edu.au](http://www.timetables.mq.edu.au)
