### Unit description

The unit examines socio-cultural diversity, complexity and transformation of the Ancient Egyptian material world drawing on case studies from the Predynastic to Late Antique periods (ca. 5000 B.C.E to 1000 C.E). The unit aims to contextualise the conditions within which disciplinary, historical and/or archaeological knowledge about ancient Egypt has been constructed and draws on Indigenous modes of learning and pedagogical principles to develop historical and cultural empathy.

Informed by theory and research paradigms developed in the social and cultural sciences, students in the unit will develop skills in critical and reflexive thinking through the examination of primary sources from diverse contexts and historiographical critique of secondary literature. The unit will pay special attention to the role played by imperialism, colonialism, orientalism and modern identity politics in the emergence and trajectory of the fields of Egyptology, archaeology and papyrology, as well as to new methods and approaches to understand Egypt's past.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Delivery and Resources

### UNIT REQUIREMENTS AND EXPECTATIONS

This unit will be structured following a Flipped classroom model, which describes a reversal of traditional teaching where students gain first exposure to new material outside of class, usually via reading or lecture videos, and then class time is used to do the harder work of assimilating that knowledge through strategies such as problem-solving, discussion or debates. The unit will be taught via a blended delivery of content and instruction using a multi-media approach such as video lectures, 3D digital artefacts and visualisations. The learning materials will be a combination of pre-recorded lectures produced by Macquarie University academic staff as well as links to a variety of new media, such as audio recordings/podcasts, blogs, think pieces, and/or social media posts created by local and international scholars. Through such approaches you will develop transferrable skills and analytical capacities that can be applied across various professional and academic settings.

### WEEKLY SCHEDULE

iLearn will play a pivotal role throughout the session and will be your central hub for information and instructions. Each week will be structured as follows:

#### ♦ BEFORE DISCUSSION | Building Knowledge, Values & Skills

##### *Step 1 | Preparation*

- Watch the pre-recorded **lecture materials** available via iLearn.
- Complete the **weekly assigned activities, source analyses and/or readings** in preparation for the weekly tutorial discussion (face-to-face or via the online discussion forum).

#### ♦ DURING DISCUSSION | Applying Knowledge, Values & Skills

##### *Step 2 | Engage with your peers*

- Lead/participate in group discussion and **participate in the weekly activities in the class tutorial and/or via the online tutorial discussion forum.**

#### ♦ AFTER DISCUSSION | Consolidating and Reflecting on Learning

##### *Step 3 | Consolidate your knowledge*

- At the end of the week, complete any outstanding tasks for the week and work on upcoming assessment tasks.
- Engage with a series of optional exercises and extension tasks on iLearn such as writing a short reflection on the weekly learning (e.g. readings, lecture content and/or tutorial discussion) in your learning journal or adding an item to the unit Glossary.
