Unit description
With the increased diversity of contexts for English language learning, language teachers need to develop competencies in evaluating and implementing appropriate language classroom practices for different contexts. This unit encourages you to consider different language learning and teaching contexts and appropriate methodologies for those contexts. You will complete classroom observation tasks of videorecorded lessons; evaluate a series of videorecorded lessons based upon principles of TESOL methodology, including planning and programming principles; and systematically compare and contrast different approaches to second language teaching and learning - all this across a variety of language teaching and learning contexts. A final task is to develop a language teaching philosophy and a professional learning plan for implementation in future years. The unit is aimed at students looking for a practical application of TESOL methodology without undertaking a Practicum. It is not intended as a replacement for the practical experience gained on a practicum such as Practicum in TESOL.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

All staff and students are expected to display appropriate behaviour that is conducive to a healthy learning environment for everyone.

Professionalism

In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability embedded in all our courses.

As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect for the academic staff who have
worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.
