Changes from Previous Offering

5Rs Framework

The 5Rs Framework, developed by the School of Education at Macquarie University, is embedded throughout your teacher education course. Your use of the 5Rs Framework will help you develop the capabilities that will make your teaching career sustainable and fulfilling. In this unit, you will learn using the 5Rs framework in the following important ways:

Reflexive - by interviewing a family you will explore and challenge your own views.

Responsive - in your case study the final section of the assessment asks you to outline implications for the educational setting based on what you found out about the family you interviewed.

Research engaged - you will engage with the research literature to inform the questions you will ask in the interview with the family, as well as draw on contemporary research in the write up of the case study.
