Unit description

This unit aims to cover many of the health issues that face children and families in both early childhood settings and at home. Early childhood professionals have an added duty of care that necessitates a comprehensive knowledge of likely and unlikely medical events in children's lives. It is also essential that these professionals are familiar with Australian regulations designed to protect children and ensure their optimal wellbeing. With technology and medical knowledge increasing at an exponential rate, it is important to develop a critical awareness of controversies and differences of opinion concerning practices. An awareness of others' beliefs and levels of understanding is necessary. Debate is encouraged regarding health and medical choices and practices. All enrolment queries should be directed to Open Universities Australia (OUA): see www.open.edu.au
