Unit description

The main aim of the unit is to provide an appreciation of how fundamental and evolving models of behaviour can help us understand issues of our contemporary world. Tools and concepts (such as supply and demand, choices and incentives, market failure, externalities, games and strategies, and behavioural economics) may be used to analyse issues of environmental damage and economic prosperity, money and happiness, cash versus gifts, art and the artist, market domination by the big brands, social networks, and more. The unit will be of interest to economics and non-economics students; the topics covered add depth to traditional introductory economics topics.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Identify and describe behavioural patterns uncovered in behavioural economics and how they connect to standard economics outcomes and observations.

**ULO2:** Analyse the impact of typical human behaviours on economic outcomes.

**ULO3:** Critique the microeconomic policy implications of typical human behaviours.

**ULO4:** Evaluate the contribution of behavioural economics to economic knowledge.

## General Assessment Information

Late Assessment Submission Penalty (written assessments)

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for [Special Consideration](#).

## Assessment Tasks

Name	Weighting	Hurdle	Due
<a href="#">Individual blog</a>	30%	No	Weekly, starting Week 3
<a href="#">Assignment</a>	40%	No	Week 8
<a href="#">Class discussion</a>	30%	No	Weeks 5,9,13

### Individual blog

Assessment Type <sup>1</sup>: Reflective Writing

Indicative Time on Task <sup>2</sup>: 30 hours

Due: **Weekly, starting Week 3**

Weighting: **30%**

Weekly sessions will involve small-group discussion and responses to the provided online material. The group outputs will be synthesised and discussed by the group as a whole. Individuals will keep a record of their own reflections on the sessions in a personal blog on iLearn.

On successful completion you will be able to:

- Identify and describe behavioural patterns uncovered in behavioural economics and how they connect to standard economics outcomes and observations.
- Analyse the impact of typical human behaviours on economic outcomes.
- Critique the microeconomic policy implications of typical human behaviours.
- Evaluate the contribution of behavioural economics to economic knowledge.

### Assignment

Assessment Type <sup>1</sup>: Case study/analysis

Indicative Time on Task <sup>2</sup>: 29 hours

Due: **Week 8**

Weighting: **40%**

Application of behavioural economics to a student-selected real-world problem.

On successful completion you will be able to:

- Identify and describe behavioural patterns uncovered in behavioural economics and how they connect to standard economics outcomes and observations.
- Analyse the impact of typical human behaviours on economic outcomes.

## Class discussion

Assessment Type <sup>1</sup>: Participatory task

Indicative Time on Task <sup>2</sup>: 26 hours

Due: **Weeks 5,9,13**

Weighting: **30%**

Three times during the session a discussion forum will be opened and starting topics provided. Students will be expected to contribute to the discussions and interact with peers in sharing perspectives and information.

On successful completion you will be able to:

- Identify and describe behavioural patterns uncovered in behavioural economics and how they connect to standard economics outcomes and observations.
- Critique the microeconomic policy implications of typical human behaviours.
- Evaluate the contribution of behavioural economics to economic knowledge.

<sup>1</sup> If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

<sup>2</sup> Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

## Delivery and Resources

### Learning and teaching strategy

The learning and teaching strategy in ECON2015 recognises that students learn from interaction with academic staff and other students. It also recognises that students must take responsibility for their learning process, which includes independent study. Moreover, it acknowledges the importance and acts to promote the academic and personal integrity of students and academic staff.

#### Online content provision

Material provided online in lieu of 'traditional' lectures is intended to provide an overview of topics in behavioural economics and application to a variety of situations. This leaves face-to-face time free for interactive exploration of the material. **Students are strongly advised to have access to a device with online connectivity (phone, tablet, laptop) in each lectorial session, as online tools will be used frequently.**

#### 'Lectorials' – Small Group Learning

'Lectorials' constitute the central learning experience in this unit and students are required to attend. The aim of these sessions is for students to work together (lecturer facilitating) to discuss and derive novel applications of the content provided online, and to assess its relevance to 'standard' economic analyses of selected problems. Insights obtained within small groups will be shared with the larger group, reflecting a cooperative approach to knowledge creation and discovery.

**All lectorials will be conducted online via Zoom.** As assessment is linked to lectorial participation these sessions will not be recorded.

#### Independent Learning – (≈ 7-8 hours per week)

ECON2015 relies heavily on independent learning where students consume the online material, reflect on lectorial outcomes, and prepare answers to pre-lectorial questions. **Marks for the reflective blogs will be affected by performance in weekly Quizizz content exercises.** Details provided in iLearn.

## Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central \(https://policies.mq.edu.au\)](https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:
