Unit description

Australia spends around 10% of its GDP on health - a figure not uncommon among most developed countries. With people living longer, the health care industry is projected to be one of the largest employers, world wide. These facts make an understanding of the economics of health care important for future economists. Questions explored include: What makes health a unique economic good? Why does health need government intervention? Why do people buy health insurance? Why do doctors charge richer patients more than poorer patients? What do hospitals maximise: profits; patients treated or quality of service? Adopting a microeconomic approach, students are introduced to concepts and techniques relevant to the understanding of health economics and to answering these questions. Topics may include: the economics of health care (demand and supply, market imperfections including market failure and resulting resource allocation); the behaviour of agents (hospitals, physicians and private health insurers) in health care; the role of government and the need for government intervention; equity and ethics in health care resource allocation; the Australian health care system; health and economic development; the case of Aboriginal health.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Apply theoretical microeconomics to health economics.

ULO2: Identify and analyse the role of health economics in understanding health systems.

ULO3: Analyse the unusual features of markets for health care as compared to markets for other goods.

ULO4: Effectively communicate knowledge of health economics in technical and non-technical language.

General Assessment Information

Late Assessment Submission Penalty (written assessments)

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55 pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for [Special Consideration](#).

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Mid session test</u>	15%	No	Week 7
<u>Student presentations</u>	15%	No	Week 8 and Week 9
<u>Research report</u>	40%	No	Week 13
<u>Final examination</u>	30%	No	University exam period

Mid session test

Assessment Type ¹: Quiz/Test

Indicative Time on Task ²: 5 hours

Due: **Week 7**

Weighting: **15%**

A short multiple choice test will be held during Week 7. The material covered in week 1 to 6 will be tested.

On successful completion you will be able to:

- Apply theoretical microeconomics to health economics.
- Analyse the unusual features of markets for health care as compared to markets for other goods.

Student presentations

Assessment Type ¹: Presentation

Indicative Time on Task ²: 5 hours

Due: **Week 8 and Week 9**

Weighting: **15%**

Each student is required to participate as a presenter. The student roster for these presentations will be prepared in Week 3.

On successful completion you will be able to:

- Effectively communicate knowledge of health economics in technical and non-technical language.

Research report

Assessment Type ¹: Report

Indicative Time on Task ²: 30 hours

Due: **Week 13**

Weighting: **40%**

A research report on suggested topic.

On successful completion you will be able to:

- Identify and analyse the role of health economics in understanding health systems.
- Effectively communicate knowledge of health economics in technical and non-technical language.

Final examination

Assessment Type ¹: Examination

Indicative Time on Task ²: 25 hours

Due: **University exam period**

Weighting: **30%**

A two-hour examination will be held during the University Examination Period, and will cover all aspects of the unit material.

On successful completion you will be able to:

- Apply theoretical microeconomics to health economics.
- Analyse the unusual features of markets for health care as compared to markets for other goods.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation
