Unit description

This unit is designed to help MRES candidates become effective editors of their own research, and able to project their work in different vehicles of publication. It examines critical aspects of publishing research as (i) a full dissertation, or (ii) a series of papers/journal articles. It compares issues in editing research for publication in print and online as well as broadcasting, to demonstrate the demands of each medium. The scope of the abstract for journal articles, conference papers and prefacing the dissertation is discussed, and the repurposing of content and stylistic adaption needed to publish research as extended non-fiction. Students are introduced to the standard style guides in the humanities, social sciences and sciences, and are given opportunity to discuss more specialised ones within their disciplinary/Faculty groups, with assignments on implementing their different recommendations. The unit provides supplementary (non-assessable) language support online for international students.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Analyse the advantages and disadvantages of print and online modes for publishing research

ULO2: Construct academic content for communicating complex ideas in longer and shorter formats, making use of multidisciplinary research into technical terminology.

ULO3: Make use of a repertoire of different editorial styles for journals within relevant

discipline areas, based on research into conventions across disciplines.

ULO4: Critically evaluate the writing of other researchers at the micro-level of language choice as well as the structure and articulation of content.

ULO5: Apply sophisticated understanding of the different demands of presenting research as a set of papers and as an extended dissertation

General Assessment Information

General assessment Information

Grade descriptors and other information concerning grading are contained in the [Macquarie University Assessment Policy](#).

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenor.

Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the [Assessment Procedure](#) (clause 128).

To pass this unit, you must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

Further details for each assessment task will be available on iLearn.

Late Submissions

Unless a Special Consideration request has been submitted and approved, a 5% penalty (OF THE TOTAL POSSIBLE MARK) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For example:

Number of days (hours) late	Total Possible Marks	Deduction	Raw mark	Final mark
1 day (1-24 hours)	100	5	75	70
2 days (24-48 hours)	100	10	75	65
3 days (48-72 hours)	100	15	75	60
7 days (144-168 hours)	100	35	75	40
>7 days (>168 hours)	100	-	75	0

Late submission of time sensitive tasks, such as timetabled tests/exams, scheduled performance assessments/presentations, scheduled practical assessments/labs, will be addressed by the unit

convenor in a Special consideration application.

Special Consideration

If you are unable to complete an assessment task on or by the specified date due circumstances that are unexpected, unavoidable, significantly disruptive and beyond your control, you may apply for special consideration in accordance with the [special consideration policy](#). Applications for special consideration must be supported by appropriate evidence and submitted via [ask.mq.edu.au](#).

Assessment Tasks

On successful completion you will be able to:

- Analyse the advantages and disadvantages of print and online modes for publishing research
- Construct academic content for communicating complex ideas in longer and shorter formats, making use of multidisciplinary research into technical terminology.
- Make use of a repertoire of different editorial styles for journals within relevant discipline areas, based on research into conventions across disciplines.
- Critically evaluate the writing of other researchers at the micro-level of language choice as well as the structure and articulation of content.
- Apply sophisticated understanding of the different demands of presenting research as a set of papers and as an extended dissertation

Editing abstracts across disciplines

Assessment Type ¹: Professional writing

Indicative Time on Task ²: 10 hours

Due: **05/11/23**

Weighting: **20%**

Identification of the different elements and structure of abstracts in different disciplines, and accurate application of principles. (1000 words)

On successful completion you will be able to:

- Analyse the advantages and disadvantages of print and online modes for publishing research
- Construct academic content for communicating complex ideas in longer and shorter formats, making use of multidisciplinary research into technical terminology.
- Make use of a repertoire of different editorial styles for journals within relevant discipline areas, based on research into conventions across disciplines.
- Apply sophisticated understanding of the different demands of presenting research as a set of papers and as an extended dissertation

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

As a student enrolled in this unit, you will engage in a range of online learning activities, including lectures, readings and quizzes. Details can be found on the iLearn site for this unit.

Recommended Readings

There are no textbooks for this unit. The Leganto Reading list provides a set of recommended resources for the unit as well as weekly readings.

Technology Used

Active participation in the learning activities throughout the unit will require students to have access to a tablet, laptop or similar device. Students who do not own their own laptop computer may borrow one from the university library.

Inclusion and Diversity

Social inclusion at Macquarie University is about giving everyone who has the potential to benefit from higher education the opportunity to study at university, participate in campus life and flourish in their chosen field. The University has made significant moves to promote an equitable, diverse and exciting campus community for the benefit of staff and students. It is your responsibility to contribute towards the development of an inclusive culture and practice in the areas of learning and teaching, research, and service orientation and delivery. As a member of the Macquarie University community, you must not discriminate against or harass others based on their sex, gender, race, marital status, carers' responsibilities, disability, sexual orientation, age, political conviction or religious belief. All staff and students are expected to display appropriate behaviour that is conducive to a healthy learning environment for everyone.

Professionalism

In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability embedded in all our courses.

As part of developing professionalism, students are expected to attend all small group interactive sessions including clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded (e.g., face-to-face lectures), however you are encouraged to avoid relying upon such material as they do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect for the academic staff who have worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please arrive to all

learning activities on time, and if you are unavoidably detained, please join activity as quietly as possible to minimise disruption. Phones and other electronic devices that produce noise and other distractions must be turned off prior to entering class. Where your own device (e.g., laptop) is being used for class-related activities, you are asked to close down all other applications to avoid distraction to you and others. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.
