Unit description

The unit focuses on two big ideas: urbanisation and the Anthropocene – a proposed epoch in which humans are driving planetary change. For the first time in human history, over half of the world's population live in cities. Urbanisation and the political, cultural and economic structures that sustain urban life are key drivers of global environmental change. The unit asks the question: how are we to imagine, plan and govern cities in the Anthropocene epoch? How are cities contributing to global environmental change and what solutions might cities offer? Key dimensions of urban and planning theory and practice are introduced, including: urban infrastructures and mobilities, social change and social justice, urban political economy and governance, and sustainability transitions. Students will apply theory and practice to case studies of Australian and international cities to explore the problems and possibilities of living on an urbanised planet.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify and describe historical and contemporary processes of urbanisation

ULO2: Discuss the interconnections between cities, climate change and social justice

ULO3: Explain how cities are imagined, planned and governed in theory and practice

ULO4: Apply urban and planning theories to case studies of Australian and international cities

ULO5: Communicate to diverse audiences using appropriately selected written, oral and visual means

General Assessment Information

Assignment requirements and submission

Detailed requirements and marking rubrics for each assessment are available from the iLearn site. All written assignments should be submitted [online to Turnitin](#) via the relevant links provided in iLearn. You are **not** required to submit a hardcopy of any assignments or include a cover sheet.

Assessment extensions and late penalties

Circumstances that affect your ability to complete assignments by the deadline must be discussed with the convenor (Sara) prior to the due date. Extensions will be granted only in unforeseen or exceptional circumstances according to the University [Special Consideration policy](#). Students must apply online via [AskMQ](#) and provide appropriate supporting documentation (e.g. medical certificate).

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to non-time sensitive assessment (incl. essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special Consideration application. Special Consideration outcome may result in a new question or topic.

Assessment feedback

All feedback for assignments will be made available online.
