Unit description
The Anthropocene is a proposed new geological epoch in which humanity is driving planetary change. This unit explores how environmental decision making and planning processes can be made more just in the context of the Anthropocene. It draws on perspectives from environmental justice, a field of research and activism focused on addressing the social and geographic inequities associated with environmental change. Environmental justice highlights how responsibility for, and the burdens of, environmental degradation are unevenly distributed across space and scale, and divided between and within social categories such as race, class, gender, ethnicity and species. Environmental justice and decision-making are analysed through a series of case studies that are presented by academic staff and environmental professionals. An important component of the unit focuses on developing analytical and practical skills for pursuing environmental justice, which requires the ability to synthesise geographic information from the social and physical sciences and engage with multiple stakeholders, decision making tools, and forms of communication. The unit makes the relationships between justice and environment more visible in a world of rapid environmental change and provides pathways and tools for pursuing more just and resilient futures.
Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Assess environmental decisions or plans using environmental justice concepts or frameworks
ULO2: Synthesise geographic information from the social and physical sciences to identify environmental justice issues
ULO3: Describe and explain common environmental injustices associated with contemporary forms of socioecological change
ULO4: Investigate and appreciate diverse stakeholder perspectives using environmental justice tools and concepts to improve environmental decision-making
ULO5: Argue for improved environmental justice outcomes in a variety of written and spoken forms

General Assessment Information

Assignment requirements and submission
Detailed requirements and marking rubrics for each assessment are available from the iLearn site. All written assignments should be submitted online to Turnitin via the relevant links provided in iLearn. You are not required to submit a hardcopy of any assignments or include a cover sheet.

Assessment extensions and late penalties
Circumstances that affect your ability to complete assignments by the deadline must be discussed with the convenor (Kate) prior to the due date. Extensions will be granted only in unforeseen or exceptional circumstances according to the University Special Consideration policy. Students must apply online via AskMQ and provide appropriate supporting documentation (e.g. medical certificate).

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of ‘0’ (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may
result in a new question or topic.

**Assessment feedback**

Feedback for assignments will be made available online and where relevant in the workshops. The grade will be in the form of a letter as consistent with University policy (HD, D, Cr, P, F) alongside written feedback.

**Environmental Justice Assessment Report**

Assessment Type ¹: Report  
Indicative Time on Task ²: 50 hours  
Due: **11.59 2nd June**  
Weighting: **30%**

Students are required to write a report that assesses a recent or upcoming environmental decision or plan from the perspective of environmental justice. The report is to be written as a brief for an environmental justice organisation (2000 words).

On successful completion you will be able to:

- Assess environmental decisions or plans using environmental justice concepts or frameworks
- Investigate and appreciate diverse stakeholder perspectives using environmental justice tools and concepts to improve environmental decision-making
- Argue for improved environmental justice outcomes in a variety of written and spoken forms

**Team based learning task**

Assessment Type ¹: Quiz/Test
Indicative Time on Task: 12 hours
Due: **11.59 Week 4, 6, 11**
Weighting: **30%**

Three team based learning multiple choice quizzes will take place to test student learning and build communication skills.

On successful completion you will be able to:
- Assess environmental decisions or plans using environmental justice concepts or frameworks
- Synthesise geographic information from the social and physical sciences to identify environmental justice issues
- Investigate and appreciate diverse stakeholder perspectives using environmental justice tools and concepts to improve environmental decision-making
- Argue for improved environmental justice outcomes in a variety of written and spoken forms

Environmental Justice Essay
Assessment Type: Essay
Indicative Time on Task: 25 hours
Due: **11.59pm 7th April**
Weighting: **20%**

This short essay asks students to explore an environmental justice concept and apply it to a case study (1000 words).

On successful completion you will be able to:
- Synthesise geographic information from the social and physical sciences to identify environmental justice issues
- Describe and explain common environmental injustices associated with contemporary forms of socioecological change
- Investigate and appreciate diverse stakeholder perspectives using environmental justice tools and concepts to improve environmental decision-making
- Argue for improved environmental justice outcomes in a variety of written and spoken forms
Tutorial participation task

Assessment Type: Participatory task
Indicative Time on Task: 0 hours
Due: Week 2-13
Weighting: 20%

Small tasks completed in tutorials related to unit content. Many of these activities will be scaffolding for the other assignments.

On successful completion you will be able to:

- Assess environmental decisions or plans using environmental justice concepts or frameworks
- Synthesise geographic information from the social and physical sciences to identify environmental justice issues
- Describe and explain common environmental injustices associated with contemporary forms of socioecological change
- Investigate and appreciate diverse stakeholder perspectives using environmental justice tools and concepts to improve environmental decision-making
- Argue for improved environmental justice outcomes in a variety of written and spoken forms

1 If you need help with your assignment, please contact:
   - the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
   - the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central (https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:
Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/admin/other-resources/student-conduct

Results

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Academic Integrity

At Macquarie, we believe academic integrity – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free online writing and maths support, academic skills development and wellbeing consultations.

Student Support

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

The Writing Centre

The Writing Centre provides resources to develop your English language proficiency, academic writing, and communication skills.

- Workshops
- Chat with a WriteWISE peer writing leader
Student Services and Support

Macquarie University offers a range of Student Support Services including:

- **IT Support**
- **Accessibility and disability support** with study
- **Mental health support**
- **Safety support** to respond to bullying, harassment, sexual harassment and sexual assault
- **Social support including information about finances, tenancy and legal issues**
- **Student Advocacy** provides independent advice on MQ policies, procedures, and processes

Student Enquiries

Got a question? Ask us via AskMQ, or contact Service Connect.

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.
