Unit description

With an emphasis on the Australasian region, this exciting interdisciplinary unit explores how societies and ecologies are entwined and develops creative ways of approaching environmental dilemmas. Bringing together geographic perspectives from the sciences, social sciences, and humanities, it examines the concepts of environment, sustainability, and society, together with their past and possible future socio-political and economic framings. The historical and contemporary contexts of key environmental issues in Australia are explained along with their connections to global events and perspectives, including climate change, invasive species, water management, environmental protection movements, and links between consumption and production. Current planning frameworks and management processes, including legal and legislative mechanisms are also considered, along with emerging strategies and social movements that aim to address existing and expected problems.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Critically examine the mutually shaping forces of societies and ecologies in producing environmental dilemmas

ULO2: Explain the significance of historical and contemporary contexts to environmental issues at different scales

ULO4: Evaluate and respond to diverse perspectives and approaches to environments, societies and sustainability

ULO5: Engage with advanced concepts and academic texts

ULO3: Identify, and critically examine, key environmental issues

ULO6: Assess, sort, and synthesise information in presentations, small group discussions, and written work

ULO7: Critically evaluate management and planning options for addressing environmental, social and sustainability challenges

General Assessment Information

Assignment requirements and submission

Detailed requirements and marking rubrics for each assessment are available from the iLearn site. All written assignments should be submitted [online to Turnitin](#) via the relevant links provided in iLearn. You are **not** required to submit a hardcopy of any assignments or include a cover sheet.

Assessment extensions and late penalties

Circumstances that affect your ability to complete assignments by the deadline must be discussed with the convenor (Phoebe) prior to the due date. Extensions will be granted only in unforeseen or exceptional circumstances according to the University [Special Consideration policy](#). Students must apply online via [AskMQ](#) and provide appropriate supporting documentation (e.g. medical certificate).

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.

Assessment feedback

Feedback for assignments will be made available online and where relevant in the workshops. The grade will be in the form of a letter as consistent with University policy (HD, D, Cr, P, F) alongside written feedback.
