Unit description

Globalisation has fundamentally transformed the business landscape. Rapid changes in emerging economies present a number of implications for doing business. This unit enables students to develop and evaluate strategies for operating and competing on a global scale. It explores a range of factors such as global supply chain risk management, offshoring, and supplier selection. Students will also develop a strategic perspective on international business by understanding the design of logistics networks in different countries, as well as the importance of cultural diversification on the broader ecosystem. The unit examines questions such as: How should a global supply chain and its operations be managed? How can global supply chains ensure continuity of operations in light of various internal and external sources of disruptions? What are the main criteria to be considered for offshoring part of their operations to a different geographical location? What is the strategic logic that should inform such decisions, and what are the main risks to manage? And how do you decide which international markets to enter or avoid? Are cultural differences still an important consideration, and, if so, how do you manage them?

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Develop sound strategies for global supply chain management

ULO2: Analyse the key drivers of global supply chain effectiveness

ULO3: Create supply chain networks that are aligned with supply chain and business strategy of the firm

ULO4: Apply established theories in identifying the critical success factors, pitfalls, and risks of global supply chain management

ULO5: Evaluate the sustainability of global supply chain operations

General Assessment Information

Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for [Special Consideration](#).

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.

Word limits

Anything beyond a stated assessment word limit (other than your reference list) may not be marked. Seek any further clarification from the unit convenor.

Delivery and Resources

Please refer to the unit content on Coursera.

Unit Schedule

Refer to the timetable information on the [GMBA website](#) or [MQ Timetable Portal](#) for Live Event session timings. Please note the timetable can be subject to change. See your Coursera unit for a detailed Live Event schedule.

Live Events will take place via Zoom each week starting in Week 1 and ending in Week 6. The links to the events will be active from 10 minutes prior to the scheduled time and are available via *Live Events* in the left-hand navigation menu in your Coursera unit.

You will need to use your Macquarie University student Zoom account to access the Live Events.

Attending the Live Event each week is an opportunity to engage with the unit content, your Unit Convenor, and classmates. Students are strongly advised to attend the Live Events. Recordings will be made available in the unit contents on Coursera shortly after the event.
