Unit description

All managers must have a basic understanding of financial management concepts, capital markets and instruments, as well as the trade-offs between financial risk versus gain. This unit provides students with the understanding of the tools and techniques in financial management. The main goal is to prepare students for responsible and sustainable leadership using the financial management perspective. The unit develops a framework around financial analysis and modeling, as well as business, risk, and investment evaluation by focusing on four main areas: (1) the assessment of an organisation's financial health, (2) the planning of the organisation's future financial performance, (3) the financing of the organisation's operations, and (4) the evaluation of business and investment opportunities for the organisation. Emphasis is placed on the application of tools and techniques to real world problems in financial management to enable students to solve related problems in their place of work.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Explain the role of financial management in assessing the ongoing financial health and performance of organisations.

**ULO2:** Explain the use of financial management tools and techniques for financial analysis and modeling.

**ULO3:** Use relevant analytical techniques to make informed financial decisions related to financing operations and the valuation of organisations and investment opportunities.

## General Assessment Information

### General Assessment Information

#### Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for [Special Consideration](#).

#### Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.

#### Word limits

Anything beyond a stated assessment word limit (other than your reference list) may not be marked. Seek any further clarification from the unit convenor.

## Delivery and Resources

### Delivery and Resources

Please refer to the unit content on Coursera.

## Unit Schedule

### Unit Schedule

Refer to the timetable information on the [GMBA website](#) or [MQ Timetable Portal](#) for Live Event session timings. Please note the timetable can be subject to change. See your Coursera unit for a detailed Live Event schedule.

Live Events will take place via Zoom each week starting in Week 1 and ending in Week 6. The links to the events will be active from 10 minutes prior to the scheduled time and are available via *Live Events* in the left-hand navigation menu in your Coursera unit.

You will need to use your Macquarie University student Zoom account to access the Live Events.

Attending the Live Event each week is an opportunity to engage with the unit content, your Unit Convenor, and classmates. Students are strongly advised to attend the Live Events. Recordings will be made available in the unit contents on Coursera shortly after the event.
