Unit description

All managers must have a basic understanding of financial management concepts, capital markets and instruments, as well as the trade-offs between financial risk versus gain. This unit provides students with the understanding of the tools and techniques in financial management. The main goal is to prepare students for responsible and sustainable leadership using the financial management perspective. The unit develops a framework around financial analysis and modeling, as well as business, risk, and investment evaluation by focusing on four main areas: (1) the assessment of an organisation's financial health, (2) the planning of the organisation's future financial performance, (3) the financing of the organisation's operations, and (4) the evaluation of business and investment opportunities for the organisation. Emphasis is placed on the application of tools and techniques to real world problems in financial management to enable students to solve related problems in their place of work.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Explain the role of financial management in assessing the ongoing financial health and performance of organisations.

ULO2: Explain the use of financial management tools and techniques for financial analysis and modeling.

ULO3: Use relevant analytical techniques to make informed financial decisions related to financing operations and the valuation of organisations and investment opportunities.

General Assessment Information

Late Assessment Submission Penalty

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for [Special Consideration](#).
