Unit description

This unit introduces best practice approaches to handling complex organisational problems with tools and methods that enable the transformation of data into insights. It also focuses on developing theoretical and practical analytical skills, such as research, critical thinking, scanning, pattern recognition and creative problem-solving. You will gain exposure to analysing data sets as well as leveraging statistical methods and visualisation techniques to inform organisational decision making.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Apply a range of frameworks, approaches and methods creatively and critically to envision and gain insights into social, environmental and economic megatrends and potential futures.

ULO2: Devise socially and environmentally sustainable strategies for organisations to address challenges and opportunities.

ULO3: Develop visualisation and storytelling techniques to persuasively and professionally present findings to a professional/expert audience.

ULO4: Demonstrate advanced team working and ethical decision making skills and abilities to collaborate with diverse individuals and stakeholders.

General Assessment Information

General Assessment Information

Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for [Special Consideration](#).

Word limits

Anything beyond a stated assessment word limit (other than your reference list) may not be marked. Seek any further clarification from the unit convenor.

Submission time after the due date (including weekends)	Penalty (% of available assessment task mark)	Example: for a non-timed assessment task marked out of 30
< 24 hours	10%	10% x 30 marks = 3 mark deduction
24-48 hours	20%	20% x 30 marks = 6 mark deduction
48-72 hours	30%	30% x 30 marks = 9 mark deduction
72-96 hours	40%	40% x 30 marks = 12 mark deduction
> 96 hours	100%	Assignment won't be accepted

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.
