Unit description

This unit introduces students to the specialised and burgeoning area of environmental law on both the national and international stage. It evaluates the effectiveness of current environmental law in the context of ongoing and emerging challenges. The unit adopts a multidisciplinary perspective to help augment understanding of the complexity of environmental challenges and enhance the analysis of relevant legislation and case law.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify and analyse the major global and Australian environmental challenges.

ULO2: Identify and critique key ethical and interdisciplinary perspectives on the environment and the relevance of different aspects of jurisprudential and legal theory that underlie environmental law including ecologically sustainable development and environmental justice

ULO3: Analyse the interaction of environmental law at multiple governance scales and the role of contextual factors.

ULO4: Critically analyse and evaluate different forms of environmental regulation and

their suitability to regulate current and future sustainability challenges.

General Assessment Information

Research essay

This mid-semester assessment may include a theoretical research question and/or a problem-solving question requiring extensive research to answer. Questions can be related to any topic from weeks 1-7 inclusive, or another topic if approved by the teaching staff.

Take home exam

This end-of-semester assessment may include short answer theoretical questions, and/or problem questions. Questions will be about any topic from the entire semester. The take home exam will address the unit outcomes, as well as many of the themes and topics we address during semester. The exam will be open to complete for 3 hours.

Class participation

This assessment is about active engagement in tutorials; not mere attendance. Contributing to tutorial discussions and tutorial exercises throughout the entire semester will be the primary activity marked for this assessment. Online contributions to the weekly discussion forums can add to the class participation, not replace it - except when absence from a tutorial is notified in advance and approved as justified.

Late Assessment Submission Penalty

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Delivery

Lectures and tutorials will both commence in week 1. Students are expected to watch pre-recorded weekly lectures that will be made available for each week in Echo 360 via the iLearn unit page, **before** attending tutorials.

Students are expected to have **prepared for the tutorials** by watching the lecture and reading the prescribed text for that week, and preparing for the **tutorial exercise** provided through iLearn. Active participation in tutorials is assessed.

Resources

Required textbook: Gerry Bates, Environmental Law in Australia (11th edition, 2023, LexisNexis).

Additional, recommended resources will be provided through iLearn.
