Unit description

Almost every use of land from building a family home to infrastructure projects across cities through to coal mining will require some form of legal assessment and approval. The relevant area of law is environmental planning law. This unit examines the intersection of economic, social and environmental issues in the context of land use and law. The focus is on both the natural and built environment in an urban and rural context with particular emphasis on the regulation of land use under the Environmental Planning and Assessment Law 1979 (NSW) and the Environment Protection and Biodiversity Conservation Act 1999 (Cth). The unit provides a detailed analysis of the legal requirements of land use planning instruments, development assessment methods, environmental impact assessment and administrative decision making relating to land use. A critical analysis is undertaken of the effectiveness of the current regulatory regime including reform proposals and options. Discussion and analysis of relevant case law and the functions of the Land and Environment Court in terms of resolving land planning and development issues is covered extensively.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Acquire and demonstrate specialized knowledge of the theories, principles and policies underlying planning and development law with particular focus on Ecologically Sustainable Development and environmental justice;

ULO2: Identify, explain and apply the regulatory scheme for planning, development assessment and approval of land use development at federal, state and local levels as the basis for critically analysis of the Environmental Planning and Assessment Act 1979 (NSW) and Environment Protection Biodiversity Conservation Act 1999 (Cth).

ULO3: Critically analyse the operation of legal review mechanisms relevant to environmental planning law in assessing the effectiveness and accountability of public authorities involved in environmental planning and assessment at all jurisdictional levels

ULO4: Display expertise in forecasting environmental challenges that will affect environmental planning law in the future and how to combat these issues whilst balancing competing interests related to economic benefits of land use planning and development.

ULO5: Critically evaluate how environmental law and policy is politicised across federal, state and local government balance levels and how the economic aspects and attempts to balance economic and environmental priorities of land use.

General Assessment Information

Late Submission Penalty

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – 5 marks out of 100 credit will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted seven days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments - e.g. quizzes, online tests.

Submission

All assessments are submitted electronically. Turnitin plagiarism detection software is used to check all written assessments.

Students should carefully check that they submit the correct file for an assessment as no re-submissions will be accepted after the due date and time, including instances where students upload an incorrect file in error.

Word count

Word limits are strictly applied. Work above the word limit will not be marked. Footnotes are to be used only for referencing. Referencing must conform to the requirements set out in the Australian Guide to Legal Citation.

Changes from Previous Offering

In 2023, LAWS8061 will contain a Class Participation component as part of the assessment schedule. This will be assessed as part of the commitment to reflective learning in the course. The second component of the reflective learning strategy is the assessment of a Reflective Paper where students reflect on what they have learnt through the unit. Further details will be provided in Week 1.

Changes since First Published

Date	Description
13/02/2023	The submission date for the Reflective Paper has been changed to May 19 (from November 19)
